Subject: Submission to the Régie de l'énergie concerning the project to connect the community of Wemindji to the La Grande-1 sub-station using the 120 kV transport network

Chief Mark,

This is to inform you that Hydro-Québec submitted last October 2, 2006 to the Régie de l'énergie a request for approval of the project to connect your community to the La Grande-1 sub-station using the 120 kV transport network. As such, you will find, attached, the letter and the document that was transmitted to the Régie de l'énergie.

Concretely, the project will consist in converting the existing 25 kV power line from La Grande-1 sub-station to Wemindji to a 120 kV power line and in building in Wemindji a 120 kV / 25 kV sub-station.

You could also find the request on the hearings in progress section of the Régie de l'énergie Web site at the following address:

http://www.regie-energie.qc.ca/audiences/en_cours_electricite.html

Should you require any additional information, please do not hesitate to contact the undersigned.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'M. Desgagné', written over a white background.
