DECISION AND INTERIM RATE ORDER

Enbridge Gas Distribution Inc. ("EGDI" or the "Company") filed an application with the Ontario Energy Board dated June 1, 2004, for an order approving or fixing rates for the sale, distribution, transmission, and storage of gas effective July 1, 2004 (the "Application"). The Board has assigned file number RP-2003-0203/EB-2004-0266 to the Application.

EGDI indicated that the Application was prepared in accordance with the Quarterly Rate Adjustment Mechanism ("QRAM") approved by the Board in RP-2000-0040 and described in Issue 2.2 of the Settlement Proposal for RP-2000-0040, which was subsequently modified and approved by the Board in RP-2002-0133 as described under Issue 4.2 of that Settlement Proposal.

The Application included the following information:

(i) EGDI's recalculated utility price for the fourth quarter of fiscal 2004 is $\$332.911/10^3\text{m}^3$ ($\$8.833/\text{GJ}$ @ $37.69 \text{ MJ}/\text{m}^3$) compared to the current utility price of $\$292.891/10^3\text{m}^3$ ($\$7.771/\text{GJ}$ @ $37.69 \text{ MJ}/\text{m}^3$) for the third quarter of fiscal 2004. The new price exceeds the $0.5 \text{ ¢}/\text{m}^3$ price variance implementation threshold. EGDI therefore requested that the recalculated utility price should be the new utility price effective July 1, 2004.

(ii) The adjusted 2004 year-end balance in the Purchased Gas Variance Account ("PGVA") as of September 30, 2004 is forecasted to be a customer credit of \$54.3 million. This credit balance reflects the transfer of a credit of \$81.1 million from the 2003 PGVA and a debit of \$26.8 million for the 2004 PGVA. The Company has proposed that no rate rider be implemented to clear the PGVA but that it be allowed to clear the 2003 and 2004 year-end balances (forecasted to be a credit of \$54.3 million) through a year-end adjustment in October 2004 in conjunction with its year-end adjustment for 2004 deferral account balances, following the Board's Decision in its main 2005 rates case, RP-2003-0203.

(iii) Due to the increase in the utility price, the Gas Supply Charge would increase from $24.0708 \text{ ¢}/\text{m}^3$ to $28.0562 \text{ ¢}/\text{m}^3$ for residential Rate 1 system gas supply customers. The resulting Gas Supply Charge for Rate 6 commercial/industrial customers would increase from $24.1429 \text{ ¢}/\text{m}^3$ to $28.1283 \text{ ¢}/\text{m}^3$.

(iv) There have been no changes in upstream transportation tolls during the third quarter of Test Year 2004 to date and therefore EGDI has made no further adjustments in this regard.

(v) The impact on a typical residential customer on system gas for this utility price, together with the consequential effect on the prescribed commodity-related costs, with an annual consumption of $3,064 \text{ m}^3$, amounts to a bill increase of \$126.20 or 9.5% on an annual bill (from \$1,335.26 to \$1,461.46). A typical residential customer on direct purchase will see its total annual bill increase by \$4.06 or 0.7%.

The Application, including supporting written evidence, was provided to parties listed on the List of Interested Parties which includes the intervenors of record in the fiscal 2005 rate application (RP-2003-0203). The Application also set out the dates for filing comments and the Company's reply to those comments.

The Board received a letter of comment from the Industrial Gas Users Association (IGUA) and a submission from the Vulnerable Energy Consumers Coalition (VECC) with additional information requests. EGDI filed its responses to these requests.

The letter from IGUA identified a possible reduction by TransCanada PipeLines Ltd. in its interim 2004 Tolls of about $4\text{¢}/\text{GJ}$, effective July 1, 2004. IGUA submitted that this reduction should be reflected in EGDI's interim rates, effective July 1, 2004. In its reply, EGDI submitted that because the National Energy Board had not yet approved the toll reduction, it was premature to include it in the QRAM calculations at this time. In addition, EGDI indicated that in the past when dealing with similar situations, EGDI's usual practice has been to record the effect of the change in the PGVA

and clear it in accordance with the prescribed methodology in the subsequent QRAM application, ensuring that customers were held harmless.

As part of its interrogatories, VECC asked EGDI to comment on why EGDI thought it was appropriate to roll out additional debit balances into a Rider C associated with clearing the PGVA, while it was not appropriate to roll out corresponding credit balances via a Rider C. VECC also asked whether EGDI could clear the 2003 year-end PGVA adjustment as a one-time adjustment, earlier than the October 2004 billing cycle. VECC also asked that given the 2003 over-collection was derived via a rider from July to December 2003, why EGDI was of the view a Rider C credit should not apply during the July to December 2004 period, combined with the debit rider associated with the 2004 year-end PGVA balance over July to September.

As part of its reply, EGDI noted that the QRAM methodology was symmetrical with respect to the addition and clearing of debit and credit balances into the current fiscal year-end estimated PGVA balance. It stated that the issue in this proceeding was that a significant credit balance pertaining to a previous fiscal year had occurred. The question, therefore, was not whether EGDI was proposing a different treatment for debit and credit balances, but rather, the most equitable manner of clearing an over-collection from a prior period. In EGDI's opinion, an equitable solution was one that would ideally return over-collections to customers based on:

- (i) the extent to which they contributed to the over-collection, i.e., sales or direct purchase, and
- (ii) volumes consumed over the fiscal year as opposed to a subset of the year, since the over-collection pertains to the fiscal year.

EGDI provided an analysis between the options of a rate rider and a one-time adjustment, together with reasons for choosing the one-time adjustment option in addition to those included in its prefiled evidence.

With respect to the question of a one-time adjustment provided earlier than October 1, 2004, EGDI responded that it required eight weeks in order to program and adequately test a one-time billing adjustment. Also, these adjustments are implemented co-incident with the start of the billing month. Therefore, assuming that the Board were to order EGDI to make a one-time adjustment at the earliest opportunity to clear the 2003 PGVA credit balance, EGDI estimated that the earliest the adjustment could be made would be in the September billing cycle.

In deciding upon the use of either a rate rider or a one-time adjustment, EGDI stated that the rider was intended to be an interim clearing of anticipated year-end balances, subject to a one-time adjustment at year end when the balance is close to final. In this instance, since the credit balance was attributable to fiscal 2003 and the final balance was known, it was more logical to use the one-time adjustment rather than Rider C.

EGDI submitted that if it was to return the over-collection through a rider over six months from July to December, any variations in the amount refunded at the end of six months would likely be transferred into the 2005 PGVA balance, which would be even further removed from the year in

which the over-collections occurred. EGDI believes that while the one-time adjustment is delayed by three months compared to the rider approach, it is superior in all other aspects. In addition, it stated that customers would be held harmless from the delay due to the accumulation of interest. With respect to 2004, EGDI stated that it did not believe that a rider for the 2004 debit balance was appropriate for reasons outlined in its evidence at paragraph 10, Exhibit Q4-4, Tab 4, Schedule 1.

The Board has considered the issues raised and the responses provided by EGDI and finds that the approach submitted by EGDI is reasonable. In the Board's view, the applicant's proposal represents a more stable approach to adjusting the commodity rates under the specific circumstances of this application.

With respect to the potential transportation rate reduction under consideration at the NEB, the Board does not find it necessary or beneficial to incorporate a rate change that has not been approved by another regulator in this present QRAM application, due to the potential for confusion and inefficiency, should it not be approved or should it be modified.

With respect to the matter of the use of a Rate Rider C, the Board supports the proposition the rate rider is equally appropriate for clearing credit balances as it is debit balances; however, the Board finds in this case that the methodology proposed by the Company represents a more practical approach to handling the over-collection from fiscal 2003.

The Board also accepts the Company's explanation supporting the timing of the one-time adjustment and finds that the use of the one-time adjustment, to be made at the same time as the clearing of other deferral accounts following the 2005 rate application, to represents the best blend of operational practicality and equitable treatment.

Pursuant to the Ontario Energy Board Act, 1998, section 36 (4.1), the Board has considered all deferral account balances related to the commodity cost of gas and is adjusting rates, as set out below, to mitigate the potential impact of an increasing customer debit balance for the forecast year end PGVA.

The Board finds that the Company's rate proposal is appropriate on an interim basis.

THE BOARD THEREFORE ORDERS THAT:

1. The rates for Enbridge Gas Distribution Inc. which were effective April 1, 2004 (EB-2004-0209), shall be superseded by rates as provided in the Company's Rate Handbook and contained in Appendix "A" attached to this Interim Rate Order. The interim rates shall be effective July 1, 2004 and shall be implemented in the Company's first billing cycle in July, 2004.
2. Effective July 1, 2004, the utility price used in determining amounts to be recorded in the fiscal 2004 Purchased Gas Variance Account shall be \$332.911/10³m³.

3. The appropriate form of customer notice set out in Appendix "B" shall accompany each customer's first bill following the implementation of this Interim Rate Order.

37

4. The parties for service shall be those on the List of Interested Parties attached as Appendix "C".

GLOSSARY OF TERMS

In this Handbook of Rates and Distribution Services, each term set out below shall have the meaning set out opposite it:

Affiliated Gas Users: An Applicant for distribution services which is related to other Gas Users through the ownership of shares to which are attached more than fifty percent of the voting rights attached to all outstanding securities of each Gas User.

Annual Contract Demand ("ACD"): The volume of gas obtained by summing the Contract Demand applicable on each day of a contract year.

Annual Turnover Volume ("ATV"): The sum of the contracted volumes injected into and withdrawn from storage by an applicant within a contract year.

Annual Volume Deficiency: The difference between the Annual Minimum Volume and the volume actually taken in a contract year, if such volume is less than the Annual Minimum Volume.

Applicant: The party who makes application to the Company for one or more of the services of the Company and such term includes any party receiving one or more of the services of the Company.

Authorized Volume: The Contract Demand, less, in respect to a T-Service arrangement under the Large Volume Service Rates, the amount by which the Applicant's Mean Daily Volume exceeds the volume of gas delivered to the Company (the "Daily Delivered Volume), plus two percent (2%) and less the volume by which the Applicant has been ordered to curtail or discontinue the use of gas.

Back-stopping: A service whereby alternative supplies of gas may be available in the event that an Applicant's supply of gas is not available for delivery to the Company.

Billing Month: A period of approximately thirty (30) days following which the Company renders a bill to an applicant. The billing month is determined by the Company's monthly Reading and Billing Schedule such that there are four (4) winter and eight (8) summer billing months per year.

Board: Ontario Energy Board.

Bundled Service: A service in which the demand for natural gas at a Terminal Location is met by the Company utilizing whatever resources or combination of resources (pipeline capacity, load balancing, etc.) are available to the Company.

Buy/Sell Arrangement: An arrangement, the terms of which are provided for in one or more agreements to which one or more of an end user of gas (being a party that buys from the Company gas delivered to a Terminal Location), an affiliate of an end user and a marketer, broker or agent of an end user is a party and the

Company is a party, and pursuant to which the Company agrees to buy from the end user or its affiliate a supply of gas and to sell to the end user gas delivered to a Terminal Location served from the gas distribution network. The Company will not enter into any new buy/sell agreement after April 1, 1999.

Buy/Sell Price: A price specified in the Company's Rate Schedules which the Company will pay for each cubic metre of gas, based on a specified energy content, purchased pursuant to a Buy/Sell Arrangement in which the purchase takes place in Ontario.

Commodity Charge: A charge per unit volume of gas actually taken by the Applicant, as distinguished from a demand charge which is based on the maximum daily volume an Applicant has the right to take.

Company: Enbridge Gas Distribution Inc.

Contract Demand: A contractually specified volume of gas applicable to service under a particular Rate Schedule which is the maximum volume of gas the Company is required to deliver to an Applicant on a daily basis under a Service Contract.

Cubic Metre ("m³"): That volume of gas which at a temperature of 15 degrees Celsius and at an absolute pressure of 101.325 kilopascals ("kPa") occupies one cubic metre. "10³m³" means 1,000 cubic metres.

Curtailment: An interruption in an Applicant's gas supply at a Terminal Location resulting from compliance with a request or an order by the Company to discontinue or curtail the use of gas.

Curtailment Delivered Supply: An additional volume of gas, in excess of the Applicant's MDV and determined by mutual agreement between the Applicant and the Company, which is Nominated and delivered by or on behalf of the Applicant to a point of interconnection with the Company's distribution system on a day of Curtailment.

Customer Charge: A monthly fixed charge that reflects being connected to the gas distribution system and is not related to volume consumed.

Daily Capacity Repurchase Quantity: A contractually agreed upon quantity representing an estimate of the Applicant's average daily gas usage during the five highest demand days during a year.

Daily Delivered Volume: The volume of gas recognized by the Company as having been delivered by an Applicant to the Company on a day. This volume will be the sum of :

- the volume of gas delivered under Intra-Alberta transportation arrangements, if any, plus;
- the volume of gas delivered under FT transportation arrangements, if any, plus;
- the FST portion, if any, of an Applicant's Mean Daily Volume, multiplied by the ratio of the Applicant's actual deliveries under FST

transportation arrangements to the Applicant's pro rata share of the total FST volume tendered to the Company by TCPL on that day.

Daily Gas Quantity: The volume of natural gas taken on a day at a Terminal Location as measured by daily metering equipment or, where the Company does not own and maintain daily metering equipment at a Terminal Location, the volume of gas taken within a billing period divided by the number of days in the billing period.

Dedicated or Sole-Use Facilities: Distribution lines directly serving a single end-use customer from a metered connection to a third party pipeline. **Delivery Charge:** A component of the rate schedule through which the Company recovers its operating costs.

Demand Charge: A fixed monthly charge which is applied to the Contract Demand specified in a Service Contract. It represents the charges for reserved capacity in the distribution system.

Demand Overrun: The amount of gas taken at a Terminal Location exceeding the Contract Demand.

Direct Purchase: Natural gas supply purchase arrangements transacted directly between two or more parties, who are producers, brokers, or agents or end users, at negotiated prices.

Disconnect and Reconnect Charges: The charges levied by the Company for disconnecting or reconnecting an Applicant from or to the Company's distribution system.

Diversion: Delivery of gas on a day to a delivery point different from the normal delivery point specified in a Service Contract.

Firm Service: A service for a continuous supply of gas without curtailment, except under extraordinary circumstances.

Firm Service Tendered ("FST"): A transportation service offered by TransCanada PipeLines Limited ("TCPL") for the transport of gas volumes from Western Canada to Ontario. This service provides for firm transportation of a total annual volume, but daily and seasonal transportation may vary at the discretion of TCPL. This service may be available to be used by Applicants in conjunction with Ontario Buy/Sell and Ontario T-service arrangements, or by the Company in conjunction with Western Buy/Sell or T-service arrangements.

Firm Transportation ("FT"): Firm Transportation service offered by TCPL for the transport of gas volumes from Western Canada to Ontario. This service may be available to be used by Applicants in conjunction with Ontario Buy/Sell and Ontario T-service arrangements, or by the Company in conjunction with Western Buy/Sell or T-service arrangements.

Force Majeure: A contract clause intended to excuse one or more parties from their obligations under a contract, in situations where performance is frustrated by unusual or severe circumstances beyond their control such as flood, fire, war, or prolonged labour strike.

Gas: Natural Gas.

Gas Purchase Agreement: A written agreement pursuant to which the Company agrees to purchase gas from an Applicant as part of a Buy/Sell Arrangement.

Gas Distribution Network: The physical facilities owned by the Company and utilized to contain, move and measure natural gas.

Gas Supply Charge: A charge for the gas commodity purchased by the applicant.

Gas Supply Load Balancing Charge: A charge in the rate schedules where the Company recovers the cost of transportation of gas.

General Service Rates: The Rate Schedules applicable to those Bundled Services for which a specific contract between the Company and the Applicant is not generally required. The General Service Rates include Rates 1, 6, and 9 of the Company.

Gigajoule ("GJ"): See Joule.

Imperial Conversion Factors:

Volume:		
1,000 cubic feet (cf)	=	1 Mcf
	=	28.32784 cubic metres (m ³)
1 billion cubic feet (cf)	=	28.32784 10 ⁶ m ³

Pressure:		
1 pound force per square inch (p.s.i.)	=	6.894757 kilopascals (kPa)
1 inch Water Column (in W.C.) (60°F)	=	0.249 kPa (15.5°C)
1 standard atmosphere	=	101.325 kPa

Energy:		
1 million British thermal units	=	1 MMBtu
	=	1.054615 gigajoules (GJ)
948,213.3 Btu	=	1 GJ

Monetary Value:		
\$1 per Mcf	=	\$0.03530096 per m ³
\$1 per MMBtu	=	\$0.9482133 per GJ

Interruptible Service: Gas service which is subject to curtailment for either capacity and/or supply reasons, at the option of the Company.

Intra-Alberta Service: Firm transportation service on the Nova pipeline system under which volumes are delivered to an Intra-Alberta point of acceptance.

Joule ("J"): The amount of work done when the point of application of a force of one newton is displaced a distance of one metre in the direction of the force. One megajoule ("MJ") means 1,000,000 joules; one gigajoule ("GJ") means 1,000,000,000 joules.

Page 2 of 9

 **ENBRIDGE**

Large Volume Service Rates: The Rate Schedules applicable for Bundled Service exceeding 340,000 cubic metres of gas per year and for which a specific contract between the Company and the Applicant is required. The Large Volume Service Rates include Rates 100, 110, 115, 135, 145, 170, and 200.

Load-Balancing: The balancing of the gas supply to meet demand. Storage and other peak supply sources, curtailment of interruptible services, and diversions from one delivery point to another may be used by the Company.

Make-up Volume: A volume of gas nominated and delivered, pursuant to mutually agreed arrangements, by an Applicant to the Company for the purpose of reducing or eliminating a net debit balance in the Applicant's Banked Gas Account.

Mean Daily Volume: The volume of gas which an Applicant who delivers gas to the Company, under a Buy/Sell or Bundled T-Service arrangement, agrees to deliver to the Company each day in the term of the arrangement. The Mean Daily Volume may be composed of volumes transported under Intra-Alberta, and/or FT, and/or FST transportation arrangements.

Metric Conversion Factors:

Volume:

1 cubic metre (m ³)	=	35.30096 cubic feet (cf)
1,000 cubic metres	=	10 ³ m ³
	=	35,300.96 cf
	=	35.30096 Mcf
28.32784 m ³	=	1 Mcf

Pressure:

1 kilopascal (kPa)	=	1,000 pascals
	=	0.145 pounds per square inch (p.s.i.)
101.325 kPa	=	one standard atmosphere

Energy:

1 megajoule (MJ)	=	1,000,000 joules
	=	948.2133 British thermal units (Btu)
1 gigajoule (GJ)	=	948,213.3 Btu
1.054615 GJ	=	1 MMBtu

Monetary Value:

\$1 per 10 ³ m ³	=	\$0.02832784 per Mcf
\$1 per gigajoule	=	\$1.054615 per MMBtu

Natural Gas: Natural and/or residue gas comprised primarily of methane.

Nominated Volume: The volume of gas which an Applicant has advised the Company it will deliver to the Company in a day.

Nominate, Nomination: The procedure of advising the Company of the volume which the Applicant will be delivering on a daily basis to the Company.

Nominations: Statements by Applicants of the volume of gas they expect to deliver to the Company in a day.

Ontario Energy Board: An agency of the Ontario Government which, amongst other things, approves the Company's Rate Schedules (Part V of this HANDBOOK) and the matters described in Parts III and IV of this HANDBOOK.

Overrun Gas: That amount of gas taken at a Terminal Location exceeding the Authorized Volume.

Point of Acceptance: The point at which the Company accepts delivery of a supply of natural gas for transportation to, or purchase from, the Applicant.

Rate Schedule: A numbered rate of the Company as fixed or approved by the Board and in effect from time to time.

Removal Permit: A permit issued by a producing Province and authorized by the Government of such Province that allows the removal of gas from the Province.

Required Orders: Such orders or other evidence of authorization necessary to carry into effect a Direct Purchase arrangement.

Sales Service: A service of the Company in which the Company acquires and sells to the Applicant the Applicant's natural gas requirements.

Service Contract: An agreement between the Company and the Applicant which describes the responsibilities of each party in respect to the arrangements for the Company to provide Sales Service or Transportation Service to one or more Terminal Locations.

Supply Overrun: Overrun gas where the Authorized Volume is less than or equal to the Contract Demand.

T-Service: Transportation Service.

Terminal Location: The building or other facility of the Applicant at or in which natural gas will be used by the Applicant.

Transportation Service: A service in which the Company does not own the gas to be delivered to an Applicant at a Terminal Location.

Unbundled Service: A service in which the demand for natural gas at a Terminal Location is met by the level of separate services (transportation, load balancing/storage) contracted to be available to the Applicant.

Western Canada Buy Price: The price per cubic metre which the Company would pay for gas (with a heating value of 37.80 megajoules/cubic metre) under its Gas Purchase Agreements which provide for the purchase of gas from a customer who delivers gas to the Company in Western Canada and where such deliveries are effected at the interconnection (at or nearest to Burstall, Saskatchewan) of the facilities of NOVA Corporation of Alberta and TransCanada PipeLines Limited.

 **ENBRIDGE**

PART II

RATES AND SERVICES AVAILABLE

The provisions of this PART II are intended to provide a general description of services offered by the Company and certain matters relating thereto. Such provisions are not definitive or comprehensive as to their subject matter and may be changed by the Company at any time without notice.

SECTION A - INTRODUCTION

1. In Franchise Services

Enbridge Gas Distribution provides in franchise services for the transportation of natural gas from the point of its delivery to Enbridge Gas Distribution to the Terminal Location at which the gas will be used. The natural gas to be transported may be owned by the Applicant for service or by the Company. In the latter case, it will be sold to the customer at the outlet of the meter located at the Terminal Location.

Applicants may elect to have the Company provide all-inclusively the services which are mutually agreed to be required or they may select (from the 300 series of rates, and Rate 125) only the amounts of those services which they consider they need.

The all-inclusive services are provided pursuant to Rates 1, 6 and 9, ("the General Service Rates") and Rates 100, 110, 115, 135, 145, and 170 ("the Large Volume Service Rates"). Individual services are available under Rates 125, 300, 305, 310, and 315 ("the Unbundled Service Rates").

Service to residential locations is provided pursuant to Rate 1.

Service which may be interrupted at the option of the Company is available, at rates lower than would apply for equivalent service under a firm rate schedule, pursuant to Rates 145, 170 and 305. Under all other rate schedules, service is provided upon demand by the Applicant, i.e., on a firm service basis.

2. Ex-Franchise Services

Enbridge Gas Distribution provides ex-franchise services for the transportation of natural gas through its distribution system to a point of interconnection with the distribution system of other distributors of natural gas. Such service is provided pursuant to Rate 200 and provides for the bundled transportation of gas owned by the Company, owned by customers of that distributor, or owned by that distributor.

For the purposes of interpreting the terms and conditions contained in this Handbook of Rates and Distribution Services the ex-franchise distributor shall be considered to be the applicant for the transportation of its customer owned gas and shall assume all the obligations of transportation as if it owned the gas.

Nominations for transportation service must specify whether the volume to be transported is to displace firm or interruptible demand or general service.

In addition, the Company provides Compression, Storage, and Transmission services on its Tecumseh system under Rates 325, 330 and 331.

SECTION B - DIRECT PURCHASE ARRANGEMENTS

Applicants who purchase their natural gas requirements directly from someone other than the Company or who are brokers or agents for an end user, may arrange to transport gas on the Company's distribution network in conjunction with either an Ontario or a Western Canada Buy/Sell Arrangement or pursuant to an Ontario Delivery Transportation Service Arrangement, whether Bundled or Unbundled, or a Western Bundled Transportation Service Arrangement.

A. Ontario Buy/Sell Arrangement

In an Ontario Buy/Sell Arrangement the Applicant delivers gas to a contractually agreed-upon point in Ontario. Such deliveries may be under either FT- or FST-type transportation arrangements, as available. At the agreed-upon point of delivery, the Company purchases the gas from the Applicant at a price determined from the Buy/Sell Price specified in Rider 'B' of the Rate Schedules. The Company will not be entering into any new Ontario buy/sell arrangements after April 1, 1999.

B. Western Canada Buy/Sell

In a Western Canada Buy/Sell Arrangement the Applicant delivers gas to a point in Western Canada which connects with the transmission pipeline of TransCanada PipeLines Limited. At that point, the Company purchases the gas from the Applicant at a price specified in Rider 'B' of the rate schedules less the costs for transmission of the gas from the point of purchase to a point in Ontario at which the Company's gas distribution network connects with a transmission pipeline system. The Company will not be entering into any new Western Canada buy/sell arrangements after April 1, 1999.

C. Ontario Delivery T-Service Arrangements

In an Ontario Delivery T-Service Arrangement the Applicant delivers gas, to a contractually agreed-upon point in Ontario.

Issued: 2004-07-01
Replaces: 2004-04-01

Page 4 of 9

Such deliveries may be under either FT- or FST-type transportation arrangements, as available. Delivery from the point of direct interconnection with the Company's gas distribution network to a Terminal Location served from the Company's gas distribution network may be obtained by the Applicant either under the Bundled Service Rate Schedules or under the Unbundled Service Rate Schedules.

(i) Bundled T-Service

Bundled T-Service is so called because all of the services required by the Applicant (delivery and load balancing) are provided for the prices specified in the applicable Rate Schedule. In a Bundled T-Service arrangement the Applicant contracts to deliver each day to the Company a Mean Daily Volume of gas. Fluctuations in the demand for gas at the Terminal Location are balanced by the Company.

(ii) Unbundled T-Service

The Unbundled Service Rates allow an Applicant to contract for only such kinds of service as the Applicant chooses. The potential advantage to an Applicant is that the chosen amounts of service may be less than the amounts required by an average customer represented in the applicable Rate Schedule, in which case the Applicant may be able to reduce the costs otherwise payable under Bundled T-Service.

D. Western Delivery T-Service Arrangement

In a Western Delivery T-Service Arrangement the Applicant contracts to deliver each day to a point on the TransCanada PipeLines Ltd. transmission system in Western Canada a Mean Daily Volume of gas plus fuel gas. Delivery from that point to the Terminal Location is carried out by the Company using its contracted capacity on the TransCanada PipeLines Limited. system and its gas distribution network. Unbundled T-Service in Ontario is not available with the Western Delivery Option.

An Applicant desiring to receive Transportation Service or to establish a Buy/Sell Arrangement must first enter into the applicable written agreements with the Company.

PART III

TERMS AND CONDITIONS APPLICABLE TO ALL SERVICES

The provisions of this PART III are applicable to, and only to, Sales Service and Transportation Service. (That is, they do not apply to Gas Purchase Agreements.)

SECTION A - AVAILABILITY

Unless otherwise stated in a rate schedule, the Company's rates and services are available throughout the entire franchised area serviced by the Company. Transportation service and/or sales service will be provided subject to the Company having the capacity in its gas distribution network to provide the service requested. When the Company is requested to supply the natural gas to be delivered, service shall be available subject to the Company having available to it a supply of gas adequate to meet the requirement without jeopardizing the supply to its existing customers.

Service shall be made available after acceptance by the Company of an application for service to a Terminal Location at which the natural gas will be used.

SECTION B - ENERGY CONTENT

The price of natural gas sold at a Terminal Location is based on the assumption that each cubic metre of such natural gas contains a certain number of megajoules of energy which number is specified in the Rate Schedules. Variations in cost resulting from the energy content of the gas actually delivered to the Company by its supplier(s) differing from the assumed energy content will be recorded and used to adjust future bills. Such adjustments shall be made in accordance with practices approved from time to time by the Ontario Energy Board.

SECTION C - SUBSTITUTION PROVISION

The Company may deliver gas from any standby equipment provided that the gas so delivered shall be reasonably equivalent to the natural gas normally delivered.

SECTION D - BILLS

Bills will be mailed or delivered monthly. Gas consumption to which the Company's rates apply will be determined by the Company either by meter reading or by the Company's estimate of consumption where meter reading has not occurred. The rates and charges applicable to a billing month shall be those applicable to the calendar month which includes the last day of the billing month.

SECTION E - MINIMUM BILLS

The minimum bill per month applicable to service under any particular Rate Schedule shall be the Customer Charge plus any applicable Contract Demand Charges for Delivery, Gas Supply Load Balancing, and Gas Supply and any applicable Direct Purchase

Issued: 2004-07-01
Replaces: 2004-04-01

Page 5 of 9

 **ENBRIDGE**

Administration Charge, all as provided for in the applicable Rate Schedule.

In addition, for service under each of the Large Volume Service Rates, if in a contract year a volume of gas equal to or greater than the product of the Contract Demand multiplied by a contractually specified multiple of the Contract Demand ("Minimum Annual Volume") is not taken at the Terminal Location the Applicant shall pay, in addition to the minimum monthly bills, the amount obtained when the difference between the Minimum Annual Volume and the volume taken in the contract year (such difference being the Annual Volume Deficiency) is multiplied by the applicable Minimum Bill Charge(s) as provided for in the applicable Rate Schedule. Notwithstanding the foregoing, the Minimum Annual Volume shall be the greater of the Minimum Annual Volume as determined above and 340,000 m³.

If gas deliveries to the Terminal Location have been ordered to be curtailed or discontinued in a contract year at the request of the Company and have been curtailed or discontinued as ordered, the Minimum Annual Volume shall be reduced for each day of curtailment or discontinuance by the excess of the Contract Demand over the volume delivered to the Terminal Location on such day.

SECTION F - PAYMENT CONDITIONS

Payment in full should be received by the Company, on or before sixteen (16) days after the bill has been issued. A penalty of 2% will be applied to the unpaid portion of the current gas related amount billed if payment is not received as outlined above.

SECTION G - TERM OF ARRANGEMENT

When gas service is provided and there is no written agreement in effect relating to the provision of such service, the term for which such service is to continue shall be one year. The term shall automatically be extended for a further year immediately following the expiry of any initial one year term or one year extension unless reasonable notice to terminate service is given to the Company, in a manner acceptable to the Company, prior to the expiry of the term. An Applicant receiving such service who temporarily discontinues service in the initial one year term or any one year extension and does not pay all the minimum bills for the period of such temporary discontinuance of service shall, upon the continuance of service, be liable to pay an amount equal to the unpaid minimum bills for such period. When a written agreement is in effect relating to the provision of gas service, the term for which such service is to continue shall be as provided for in the agreement.

SECTION H - RESALE PROHIBITION

Gas taken at a Terminal Location shall not be resold other than in accordance with all applicable laws and regulations and orders of any governmental authority or Board having jurisdiction.

SECTION I - MEASUREMENT

The Company will install, operate and maintain at a Terminal Location such measurement equipment of suitable capacity and design as is required to measure the volume of gas delivered. Any special conditions for measurement are contained in the General Terms and Conditions which form part of each Service Contract.

SECTION J - RATES IN CONTRACTS

Notwithstanding any rates for service specified in any Service Contract, the rates and charges provided for in an applicable Rate Schedule shall apply for service rendered on and after the effective date stated in such Rate Schedule until such Rate Schedule ceases to be applicable.

SECTION K - ADVICE RE: CURTAILMENT

The Company, if requested, will advise Applicants taking interruptible service of its estimate of service curtailment for the forthcoming winter. Such estimate will be provided as guidance to the Applicant in arranging for standby fuel requirements. Abnormal weather and/or other unforeseen events may cause greater or lesser curtailment of service than expected.

SECTION L - DAILY DELIVERED VOLUMES

For purposes including that of calculating daily overrun gas volumes, the Company will recognize as having been delivered to it on a given day the sum of:

- a) the volume of gas delivered under Intra-Alberta transportation arrangements, if any, plus;
- b) the volume of gas delivered under FT transportation arrangements, if any, plus;
- c) the FST portion, if any, of an Applicant's Mean Daily Volume, multiplied by the ratio of the Applicant's actual deliveries under FST transportation arrangements, to the Applicant's pro rata share of the total FST volume tendered to the Company by TCPL on that day.

SECTION M - AUTHORIZED OVERRUN GAS

If an Applicant requests permission to exceed the Authorized Volume for a day, and such authorization is granted, such gas shall constitute Authorized Overrun Gas. Such gas shall either be sold by the Company to the Applicant pursuant to the provisions of Rate 320 applicable on such day, or, at the Applicant's request and at the Company's sole discretion, be debited to the Applicant's Banked Gas Account.

Issued: 2004-07-01
Replaces: 2004-04-01

Page 6 of 9

 ENBRIDGE

SECTION N - UNAUTHORIZED OVERRUN GAS

If an Applicant for Transportation Service pursuant to the General Service Rates on any day delivers to the Company a Daily Delivered Volume less than the Mean Daily Volume, the volume of gas by which the Mean Daily Volume applicable to such day exceeds the Daily Delivered Volume delivered by the Applicant to the Company on such day shall constitute Unauthorized Overrun Gas and shall be deemed to have been taken and purchased on such day. The rate applicable to such volume shall be 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and the EDA delivery areas respectively.

Unauthorized Overrun Gas for a day applicable to a Service Contract with an Applicant for service under the Large Volume Service Rates is:

- (a) the volume of gas by which the Daily Gas Quantity under the Service Contract on such day exceeds the Authorized Volume for such day
plus
- (b) if the day is a day on or in respect of which the Applicant has been requested in accordance with the Service Contract to curtail or discontinue the use of gas and the Service Contract is in whole or in part for interruptible Transportation Service, the volume of gas, if any, by which
- (i) the Mean Daily Volume that applies to the interruptible rate stipulated in the Service Contract and is applicable to such day exceeds
- (ii) the Daily Delivered Volume delivered by the Applicant to the Company on such day, which excess volume of gas shall be deemed to have been taken and purchased by the Applicant on such day.

The Applicant shall pay the Company for Unauthorized Overrun Gas at the rate applicable to Unauthorized Overrun Gas as provided for in the Rate Schedule(s) applicable to the Service Contract.

Unauthorized Overrun Gas for a day applicable to a Service Contract with an Applicant for service under Rate 125, Rate 300 or Rate 305 shall be determined from the provisions of the applicable Rate Schedule. The Applicant shall pay the Company for Unauthorized Overrun Gas at the rate applicable to Unauthorized Overrun Gas as provided for in the Rate Schedule(s) applicable to the Service Contract.

PART IV

TERMS AND CONDITIONS – DIRECT PURCHASE ARRANGEMENTS

Any Applicant, at the time of applying for service, may elect, in and for the term of any Service Contract, to deliver its own natural gas requirements to the Company and the Company shall deliver gas to a Terminal Location as required by the Applicant, subject to the terms and conditions contained in the applicable Rate Schedule and in the Service Contract. For Buy/Sell Arrangements and Bundled T-Service the deliveries by the Applicant to the Company shall be at the Applicant's estimated mean daily rate of consumption.

Backstopping of an Applicant's natural gas supply for Transportation Service arrangements will be available pursuant to Rate 320 subject to the Company's ability to do so using reasonable commercial efforts. Gas Purchase Agreements in respect to Buy/Sell Arrangements shall specify terms and conditions available to the Company to alleviate certain consequences of the Applicant's failure to deliver the required volume of gas.

The following Terms and Conditions shall apply to, and only to, Transportation Service and/or Gas Purchase Agreements.

SECTION A - NOMINATIONS

An Applicant delivering gas to the Company pursuant to a contract is responsible for advising the Company, by means of a contractually specified Nomination procedure, of the daily volume of gas to be delivered to the Company by or on behalf of the Applicant.

An initial daily volume must be Nominated by a contractually specified time before the first day on which gas is to be delivered to the Company. Any Nomination, once accepted by the Company, shall be considered as a standing nomination applicable to each subsequent day in a contract term unless specifically varied by written notice to the Company.

A contract may specify certain contractual provisions that are applicable in the event that an Applicant either fails to advise of a revised daily nomination or fails to deliver the daily volume so nominated.

A Nominated Volume in excess of the Applicant's Maximum Daily Volume as specified in the Service Contract will not be accepted except as specifically provided for in any contract.

SECTION B - OBLIGATION TO DELIVER

During any period of curtailment or discontinuance of Bundled interruptible Transportation Service as ordered by the Company, any Applicant supplying its own gas requirements must, on such

Issued: 2004-07-01
Replaces: 2004-04-01

Page 7 of 9

ENBRIDGE

day, deliver to the Company the Mean Daily Volume of gas specified in any Service Contract.

Applicants selling gas to the Company pursuant to a Gas Purchase Agreement must, on each day in the term of such agreement, deliver to the Company the Mean Daily Volume of gas specified in such agreement.

SECTION C - DIVERSION RIGHTS

Subject to compliance with the Terms and Conditions of all Required Orders, an Applicant who has entered into a Transportation Service Agreement or Agreements which provide(s) for deliveries to the Company for more than one Terminal Location shall have the right, on such terms and only on such terms as are specified in the applicable Transportation Service Agreement, to divert deliveries from one or more contractually specified Terminal Locations to other contractually specified Terminal Locations.

SECTION D - BANKED GAS ACCOUNT

For T-Service Applicants, the Company shall keep a record ("Banked Gas Account") of the volume of gas delivered by the Applicant to the Company in respect of a Terminal Location (credits) and of the volume of gas taken by the Applicant at the Terminal Location (debits). (Any volume of gas sold by the Company to the Applicant in respect to the Terminal Location shall not be debited to the Banked Gas Account). The Company shall periodically report to the Applicant the net balance in the Applicant's Banked Gas Account.

SECTION E - OFFSET OF BANKED GAS ACCOUNTS

If the Company maintains two or more Banked Gas Accounts (each of which is in respect of a contract year ending on the same date) for an Applicant, or one or more Banked Gas Accounts (each of which is in respect of a contract year ending on the same date) for each of an Applicant and an affiliate of the Applicant, then, in respect of any or all such Banked Gas Accounts as the Applicant chooses, by written notice to the Company within thirty (30) days of the end of such contract year or any later date which the Company accepts or agrees to in writing, the Applicant, subject to the terms hereof, shall combine

- (i) the net debit balances, if any, of such Banked Gas Accounts in a Combined Banked Gas Account as a debit; and
 - (ii) the net credit balances, if any, of such Banked Gas Accounts in such Combined Banked Gas Account as a credit
- and for purposes of applying the provisions which follow and appear under the heading "DISPOSITION OF BANKED GAS ACCOUNT BALANCES", all such Banked Gas Accounts (other than the Combined Banked Gas Account) shall be deemed to have no net debit balance or net credit balance and the Combined Banked Gas

Account shall be deemed to be a Banked Gas Account of the Applicant. Under no circumstances shall the Combined Bank Gas Account balance to be carried forward exceed twenty (20) times the aggregate of the Mean Daily Volumes applicable to the Terminal Locations identified in the Applicant's notice to the Company requesting the combination of such Banked Gas Accounts. Notwithstanding the foregoing, without the written consent of the Company, the provisions of this paragraph shall not be applicable to the Applicant unless:

- (i) all applicable Required Orders are in effect and all the provisions hereof relating to Banked Gas Accounts may be applied and performed without contravening any such Required Order or applicable law; and ,
- (ii) if a Combined Banked Gas Account reflects the net debit balance or net credit balance of a Banked Gas Account of an affiliate of an Applicant, such affiliate consents to the same and agrees, in such form as the Company requires, that the balance in such Banked Gas Account has been eliminated and that such affiliate releases all rights that such affiliate had, or may have had, with respect to such Banked Gas Account.

SECTION F - DISPOSITION OF BANKED GAS ACCOUNT BALANCES

- (a) At the end of each contract year, disposition of any net debit balance in the Banked Gas Account shall be made as follows:

The Applicant, by written notice to the Company within thirty (30) days of the end of the contract year, may elect to return to the Company, in kind, during the one hundred and eighty (180) days following the end of the contract year that portion of any debit balance in the Banked Gas Account as at the end of the contract year not exceeding a volume of twenty times the Applicant's Mean Daily Volume by the Applicant delivering to the Company on days agreed upon by the Company and the Applicant a volume of gas greater than the Mean Daily Volume, if any, applicable to such day under a Service Contract. Any volume of gas returned to the Company as aforesaid shall not be credited to the Banked Gas Account in the subsequent contract year. Any debit balance in the Banked Gas Account as at the end of the contract year which is not both elected to be returned, and actually returned, to the Company as aforesaid shall be deemed to have been sold to the Applicant and the Applicant shall pay for such gas within ten (10) days of the rendering of a bill therefor. The rate applicable to such gas shall be:

- (i) for Bundled T-Service, 120% of the average price over the contracted year, based on the published index price for the Monthly AECO/NIT supply adjusted for Nova's AECO to Empress transportation tolls and compressor fuel costs.

Issued: 2004-07-01
Replaces: 2004-04-01

Page 8 of 9

 **ENBRIDGE**

(ii) for Unbundled T-Service (including Rate 125), 120% of the average price over the contracted year, based on the published index price for the Monthly AECO/NIT supply adjusted for Nova's AECO to Empress transportation tolls and compressor fuel costs, plus the average transportation service credit over the contract year.

(b) A credit balance in the Banked Gas Account as at the end of the contract year must be eliminated in one or more of the following manners, namely:

(i) Subject to clause (ii), if the Applicant continues to take service from the Company under a contract pursuant to which the Applicant delivers gas to the Company and the Applicant so elects (by written notice to the Company within thirty (30) days of the end of the contract year), that portion of such balance which the Applicant stipulates in such written notice and which does not exceed twenty times the Applicant's Mean Daily Volume may be carried forward as a credit to the Banked Gas Account for the next succeeding contract year. Any volume duly elected to be carried forward under this clause shall, and may only, be reduced within the period of one hundred and eighty (180) days ("Adjustment Period") immediately following the contract year, by the Applicant delivering to the Company, on days in the Adjustment Period agreed upon by the Company and the Applicant ("Adjustment Days"), a volume of gas less than the Mean Daily Volume applicable to such day under a Service Contract. Subject to the foregoing, the credit balance in the Banked Gas Account shall be deemed to be reduced on each Adjustment Day by the volume ("Daily Reduction Volume") by which the Mean Daily Volume applicable to such day exceeds the greater of the volume of gas delivered by the Applicant on such day and the Nominated Volume for such day which was accepted by the Company.

(ii) Any portion of a credit balance in the Banked Gas Account which is not eligible to be eliminated in accordance with clause (i), or which the Applicant elects (by written notice to the Company within thirty (30) days of the end of the contract year) to sell under this clause, shall be deemed to have been tendered for sale to the Company and the Company shall purchase such portion at a price per cubic metre of eighty percent (80%) of the average price over the contract year, based on the published index price for the Monthly AECO/NIT supply adjusted for Nova's AECO to Empress transportation tolls and compressor fuel costs, less the average Ontario Transportation Service Credit over the contract year. Any volume of gas deemed to have been so tendered for sale shall be deemed to have been eliminated from the credit balance of the Banked Gas Account.

During the Adjustment Period the Company shall use reasonable efforts to accept the Applicant's reduced gas deliveries. Any credit balance in the Banked Gas Account not eliminated as aforesaid in the Adjustment Period shall be forfeited to, and be

the property of, the Company, and such volume of gas shall be debited to the Banked Gas Account as at the end of the Adjustment Period.

Subject to its ability to do so, the Company will attempt to accommodate arrangements which would permit adjustments to Banked Gas Account balances at times and in a manner which are mutually agreed upon by the Applicant and the Company.

July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 15

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

3.8508 ¢/m³

In determining the Annual Volume Deficiency, the minimum bill multiplier shall not be less than 183.

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after July 1, 2004 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 16

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation, to a single terminal location ("Terminal Location"), of an annual supply of natural gas of not less than 292 times a specified maximum daily volume of not less than 1,165 cubic metres.

CHARACTER OF SERVICE:

Service shall be continuous (firm) except for events as specified in the Service Contract including force majeure.

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	Billing Month	
	December to March	April to November
Monthly Customer Charge	\$500.00	\$500.00
Delivery Charge		
Per cubic metre of Contract Demand	24.0000 ¢/m ³	24.0000 ¢/m ³
Per cubic metre of gas delivered		
For the first 500,000 m ³ per month	0.9981 ¢/m ³	0.3728 ¢/m ³
For the next 500,000 m ³ per month	0.8781 ¢/m ³	0.2528 ¢/m ³
For all over 1,000,000 m ³ per month	0.7581 ¢/m ³	0.1328 ¢/m ³
Gas Supply Load Balancing Charge		
Per cubic metre of Contract Demand	11.0000 ¢/m ³	11.0000 ¢/m ³
Per cubic metre of gas delivered	2.5491 ¢/m ³	2.5491 ¢/m ³
System Sales Gas Supply Charge per cubic metre (If applicable)	27.8606 ¢/m ³	27.8606 ¢/m ³
Buy/Sell Sales Gas Supply Charge per cubic metre (If applicable)	27.8414 ¢/m ³	27.8414 ¢/m ³

The rates quoted above shall be subject to the Gas Inventory Adjustment contained in Rider "C". In addition, meter readings will be adjusted by the Atmospheric Pressure Factor relevant to the customer's location as shown in Rider "F". The Gas Supply Charge is applicable if the Applicant is not providing its own supply of natural gas for transportation.

DIRECT PURCHASE ARRANGEMENTS:

Rider "A" or Rider "B" shall be applicable to Applicants who enter into Direct Purchase Arrangements under this Rate Schedule.

UNAUTHORIZED OVERRUN GAS RATE:

When the Applicant takes Unauthorized Supply Overrun Gas, the Applicant shall purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.

On the second and subsequent occasion in a contract year when the Applicant takes Unauthorized Demand Overrun Gas, the Contract Demand shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively if necessary.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 17

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

2.9752 ¢/m³

In determining the Annual Volume Deficiency the minimum bill multiplier shall not be less than 292.

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after July 1, 2004 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 18

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation, to a single terminal location ("Terminal Location"), of a specified maximum daily volume of natural gas of not less than 609,000 cubic metres and a minimum annual volume of 200,000,000 cubic metres.

CHARACTER OF SERVICE:

Service shall be firm except for events as specified in the Service Contract including force majeure. The Applicant shall not take a volume of gas at the Terminal Location that varies, in any day, by more than two percent (2%) from the Delivered Volume. The hourly volume shall not exceed five percent (5%) of the Delivered Volume, without the Company's prior consent.

RATE:

The following rates and charges, as applicable, shall apply for deliveries to the Terminal Location.

Demand Charge

Per cubic metre of Contract Demand per month **8.2125 ¢/m³**

Direct Purchase Administration Charge

\$50.00

AUTHORIZED DEMAND OVERRUN:

The following Authorized Demand Overrun Rate is applied to any quantities of gas transported in excess of the Contract Demand. Overrun will be authorized by the Company at its sole discretion.

Automatic authorization of transportation overrun will be given in the case of dedicated (or, sole-use) facilities to the Terminal Location provided that pipeline capacity is available.

Authorized Demand Overrun Rate **0.27 ¢/m³**

The Authorized Demand Overrun Rate may be applied to commissioning volumes less than 200 million cubic metres per year at the Company's sole discretion, for a contractual period of one year or less.

MINIMUM BILL:

If during the contract year, the Applicant takes a quantity of gas less than the minimum applicable annual volume of 200 million cubic metres of gas on this rate class, then the Applicant will be billed for the difference between actual consumption and 200 million cubic metres at a rate of: **3.0 ¢/m³**

TERMS AND CONDITIONS OF SERVICE:

1. The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.
2. The Applicant is required to provide the Company with Unaccounted for Gas equal to the forecast system average percentage times the volume that the Applicant is required to deliver to the Company. In the case of dedicated facilities where volume is measured from a custody transfer meter, the Unaccounted for Gas volume requirement is not applicable.
3. a) Any volume of gas taken by the Applicant on a day at the Terminal Location which exceeds the sum of:
 - i. any applicable Load Balancing Demand pursuant to Rate 310 or any applicable Storage Demand pursuant to Rate 315, plus

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 19

ii. the volume of gas delivered by the Applicant on that day shall constitute as Supply Overrun Gas.

Supply Overrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant shall be debited to the Applicant's Banked Gas Account. Any remaining excess shall be classified as Unauthorized Supply Overrun Gas. In any instance of Unauthorized Supply Overrun, the customer shall purchase such gas at a price P_e , which is equal to 150% of the highest price, in effect for that day as defined below*.

b) Any volume of gas taken by the Applicant on a day at the Terminal Location which exceeds the Contract Demand shall be classified as Demand Overrun Gas.

In any instance in a contract year when the Applicant takes Unauthorized Demand Overrun Gas, the Applicant must adjust the Contract Demand to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively if necessary.

4. Any volume of gas delivered by the Applicant on any day in excess of the sum of:

- i. any applicable Load Balancing Demand pursuant to Rate 310 or applicable Storage Demand pursuant to Rate 315, plus
- ii. the volume of gas taken by the Applicant at the Terminal Location on that day shall be classified as Supply Underrun Gas.

Supply Underrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant on that day shall be credited to the Applicant's Banked Gas Account. The Company would order the Applicant to dispose of any remaining excess of the Unauthorized Supply Underrun Gas. Failing such action by the Applicant, the Company would purchase the portion of Unauthorized Supply Underrun Gas in excess of 2% at a price P_u , which is equal to fifty percent (50%) of the lowest price in effect on that day as defined below**.

* where the price, P_e , expressed in cents / cubic metre is defined as follows:

$$P_e = (P_m * E_r * 100 * 0.03769 / 1.054615) * 1.5$$

P_m = highest daily price in U.S. \$/mmBtu published in the Gas Daily, a Financial Times Publication, for that day under the column "Absolute", for the Niagara export point if the terminal location is in the CDA delivery area, and the Iroquois export point if the terminal location is in the EDA delivery area.

E_r = Noon day spot exchange rate expressed in Canadian dollars per U.S. dollar for such day quoted by the Bank of Canada in the following days Globe & Mail Publication.

1.054615 = Conversion factor from mmBtu to GJ.

0.03769 = Conversion factor from GJ to cubic metres.

** where the price P_u expressed in cents / cubic metre is defined as follows:

$$P_u = (P_l * E_r * 100 * 0.03769 / 1.054615) * 0.5$$

P_l = lowest daily price in U.S. \$/mmBtu published in the Gas Daily, a Financial Times Publication, for that day under the column "Absolute", for the Niagara export point if the terminal location is in the CDA delivery area, and the Iroquois export point if the terminal location is in the EDA delivery area.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 20

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation, to a single terminal location ("Terminal Location"), of an annual supply of natural gas of not less than 340,000 cubic metres.

CHARACTER OF SERVICE:

Service shall be continuous (firm) except for events as specified in the Service Contract including force majeure. A maximum of five percent of the contracted annual volume may be taken by the Applicant in a single month during the months of December to March inclusively.

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	Billing Month	
	December to March	April to November
Monthly Customer Charge	\$100.00	\$100.00
Delivery Charge		
For the first 14,000 m ³ per month	6.6182 ¢/m ³	1.9182 ¢/m ³
For the next 28,000 m ³ per month	5.4182 ¢/m ³	1.2182 ¢/m ³
For all over 42,000 m ³ per month	5.0182 ¢/m ³	1.0182 ¢/m ³
Gas Supply Load Balancing Charge	2.0685 ¢/m ³	2.0685 ¢/m ³
System Sales Gas Supply Charge per cubic metre (If applicable)	28.0281 ¢/m ³	28.0281 ¢/m ³
Buy/Sell Sales Gas Supply Charge per cubic metre (If applicable)	28.0088 ¢/m ³	28.0088 ¢/m ³

The rates quoted above shall be subject to the Gas Inventory Adjustment contained in Rider "C". In addition, meter readings will be adjusted by the Atmospheric Pressure Factor relevant to the customer's location as shown in Rider "F". The Gas Supply Charge is applicable if the Applicant is not providing its own supply of natural gas for transportation.

DIRECT PURCHASE ARRANGEMENTS:

Rider "A" or Rider "B" shall be applicable to Applicants who enter into Direct Purchase Arrangements under this Rate Schedule.

UNAUTHORIZED OVERRUN GAS RATE:

When the Applicant takes Unauthorized Supply Overrun Gas, the Applicant shall purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 21

SEASONAL OVERRUN CHARGE:

During the months of December through March inclusively, any volume of gas taken in a single month in excess of five percent of the annual contract volume (Seasonal Overrun Monthly Volume) will be subject to Seasonal Overrun Charges in place of both the Delivery and Gas Supply Load Balancing Charges. The Seasonal Overrun Charge applicable for the months of December and March shall be calculated as 2.0 times the sum of the Gas Supply Load Balancing Charge and the maximum Delivery Charge. The Seasonal Overrun Charge applicable for the months of January and February shall be calculated as 5.0 times the sum of the Load Balancing Charge and the maximum Delivery Charge.

Seasonal Overrun Charges:

December and March 17.3734 ¢/m³

January and February 43.4335 ¢/m³

ANNUAL VOLUME DEFICIENCY CHARGE:

An Applicant which takes less than seventy-five percent of the annual contract volume in a contract year will be subject to an Annual Volume Deficiency Charge. The Annual Volume Deficiency will be calculated as the difference between seventy-five percent of the annual contract volume and the actual annual volume taken. The Annual Volume Deficiency Charge will be calculated as the Annual Volume Deficiency times the Seasonal Overrun Charge applicable for the months of December and March.

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after July 1, 2004 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 22

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation of a specified maximum daily volume of natural gas to a single terminal location ("Terminal Location") which can accommodate the total interruption of gas service as ordered by the Company exercising its sole discretion. Any Applicant for service under this rate schedule must agree to transport a minimum annual volume of 340,000 cubic metres.

CHARACTER OF SERVICE:

In addition to events as specified in the Service Contract including force majeure, service shall be subject to curtailment or discontinuance upon the Company issuing a notice not less than 72 hours prior to the time at which such curtailment or discontinuance is to commence. An Applicant may, by contract, agree to accept a shorter notice period (see Capacity Repurchase Rate).

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	Billing Month	
	December to March	April to November
Monthly Customer Charge	\$100.00	\$100.00
Delivery Charge		
For the first 14,000 m ³ per month	4.9417 ¢/m ³	2.8506 ¢/m ³
For the next 28,000 m ³ per month	3.5827 ¢/m ³	1.4916 ¢/m ³
For all over 42,000 m ³ per month	3.0237 ¢/m ³	0.9326 ¢/m ³
Gas Supply Load Balancing Charge	3.7234 ¢/m ³	3.7234 ¢/m ³
System Sales Gas Supply Charge per cubic metre (If applicable)	27.9940 ¢/m ³	27.9940 ¢/m ³
Buy/Sell Sales Gas Supply Charge per cubic metre (If applicable)	27.9747 ¢/m ³	27.9747 ¢/m ³

The rates quoted above shall be subject to the Gas Inventory Adjustment contained in Rider "C". In addition, meter readings will be adjusted by the Atmospheric Pressure Factor relevant to the customer's location as shown in Rider "F". The Gas Supply Charge is applicable if the Applicant is not providing its own supply of natural gas for transportation.

DIRECT PURCHASE ARRANGEMENTS:

Rider "A" or Rider "B" shall be applicable to Applicants who enter into Direct Purchase Arrangements under this Rate Schedule.

CAPACITY REPURCHASE RATE:

(Applicable to an Applicant who can, and will contract to, curtail or discontinue using gas within sixteen (16) hours from the issuance of an order to do so.) On days when the Applicant is ordered by the Company to curtail the use of gas, the Company shall purchase the Applicant's right to take service hereunder.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 23

Rate for Service Rights per cubic metre of
Daily Capacity Repurchase Quantity per day of curtailment:

1.0 ¢/m³

In addition, if the Applicant is supplying its own gas requirements, the gas delivered by the Applicant during the period of curtailment shall be purchased by the Company for the Company's use. As of October 1, 2001, the purchase price for such gas will be equal to the price that is reported for the month, in the first issue of the *Natural Gas Market Report* published by Canadian Enerdata Ltd. during the month, as the "current" "Avg." (i.e., average) "Alberta One-Month Firm Spot Price" for "AECO 'C' and Nova Inventory Transfer" in the table entitled "Domestic spot gas prices", adjusted for AECO to Empress transportation tolls and compressor fuel costs.

For the areas specified in Appendix A to this Rate Schedule, the Company's gas distribution network does not have sufficient physical capacity under current operating conditions to accommodate the provision of firm service to existing interruptible locations. For any location presently served or any new Applicant for service pursuant to this Rate Schedule in these areas, the Company shall purchase the rights to take service hereunder at 125% of the above-stated Rate for Service Rights.

UNAUTHORIZED OVERRUN GAS RATE:

When the Applicant takes Unauthorized Supply Overrun Gas, the Applicant shall purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively, and adjust the Contract Demand, effective on the next day, to the actual maximum daily taken.

Should the Applicant fail to curtail its use of natural gas within the contracted time period or as ordered by the Company, the rate shall be increased by:

25.0 ¢/m³

The third instance of such failure in any contract year may result in the Applicant forfeiting the right to be served under this Rate Schedule. In such case service hereunder would cease, notwithstanding any Service Contract between the Company and the Applicant. Gas supply and/or transportation service would continue to be available to the Applicant pursuant to the provisions of the Company's Rate 6 until a Service Contract pursuant to another applicable Rate Schedule was executed.

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

7.1160 ¢/m³

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after July 1, 2004 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 24

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation of a specified maximum daily volume of natural gas of not less than 30,000 cubic metres and a minimum annual volume of 5,000,000 cubic metres to a single terminal location ("Terminal Location") which can accommodate the total interruption of gas service when required by the Company. The Company, exercising its sole discretion, may order interruption of gas service upon not less than four (4) hours notice.

CHARACTER OF SERVICE:

In addition to events as specified in the Service Contract including force majeure, service shall be subject to curtailment or discontinuance upon the Company issuing a notice not less than 4 hours prior to the time at which such curtailment or discontinuance is to commence.

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	Billing Month	
	December to March	April to November
Monthly Customer Charge	\$200.00	\$200.00
Delivery Charge		
Per cubic metre of Contract Demand	3.0000 ¢/m ³	3.0000 ¢/m ³
Per cubic metre of gas delivered		
For the first 1,000,000 m ³ per month	0.8841 ¢/m ³	0.5545 ¢/m ³
For all over 1,000,000 m ³ per month	0.6841 ¢/m ³	0.3545 ¢/m ³
Gas Supply Load Balancing Charge	2.4047 ¢/m³	2.4047 ¢/m³
System Sales Gas Supply Charge per cubic metre (If applicable)	27.9363 ¢/m³	27.9363 ¢/m³
Buy/Sell Sales Gas Supply Charge per cubic metre (If applicable)	27.9170 ¢/m³	27.9170 ¢/m³

The rates quoted above shall be subject to the Gas Inventory Adjustment contained in Rider "C". In addition, meter readings will be adjusted by the Atmospheric Pressure Factor relevant to the customer's location as shown in Rider "F". The Gas Supply Charge is applicable if the Applicant is not providing its own supply of natural gas for transportation.

DIRECT PURCHASE ARRANGEMENTS:

Rider "A" or Rider "B" shall be applicable to Applicants who enter into Direct Purchase Arrangements under this Rate Schedule.

CAPACITY REPURCHASE RATE:

On days when the Applicant is ordered by the Company to curtail the use of gas, the Company shall purchase the Applicant's right to take service hereunder.

Rate for Service Rights per cubic metre of
Daily Capacity Repurchase Quantity per day of curtailment:

1.0 ¢/m³

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 25

In addition, if the Applicant is supplying its own gas requirements, the gas delivered by the Applicant during the period of curtailment shall be purchased by the Company for the Company's use. As of October 1, 2001, the purchase price for such gas will be equal to the price that is reported for the month, in the first issue of the *Natural Gas Market Report* published by Canadian Enerdata Ltd. during the month, as the "current" "Avg." (i.e., average) "Alberta One-Month Firm Spot Price" for "AECO 'C' and Nova Inventory Transfer" in the table entitled "Domestic spot gas prices", adjusted for AECO to Enbridge transportation tolls and compressor fuel costs.

For the areas specified in Appendix A to this Rate Schedule, the Company's gas distribution network does not have sufficient physical capacity under current operating conditions to accommodate the provision of firm service to existing interruptible locations. For any location presently served or any new Applicant for service pursuant to this Rate Schedule in these areas, the Company shall purchase the rights to take service hereunder at 125% of the above-stated Rate for Service Rights.

UNAUTHORIZED OVERRUN GAS RATE:

When the Applicant takes Unauthorized Supply Overrun Gas, the Applicant shall purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.

On the second and subsequent occasions in a contract year when the Applicant takes Unauthorized Demand Overrun Gas, the Contract Demand shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively if necessary.

Should the Applicant fail to curtail its use of natural gas within the contracted time period or as ordered by the Company, the rate shall be increased by:

25.0 ¢/m³

The third instance of such failure in any contract year may result in the Applicant forfeiting the right to be served under this Rate Schedule. In such case service hereunder would cease, notwithstanding any Service Contract between the Company and the Applicant. Gas supply and/or transportation service would continue to be available to the Applicant pursuant to the provisions of the Company's Rate 6 until a Service Contract pursuant to another applicable Rate Schedule was executed.

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

2.9140 ¢/m³

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after July 1, 2004 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 26

APPLICABILITY:

To any Distributor who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation of an annual supply of natural gas to customers outside of the Company's franchise area.

CHARACTER OF SERVICE:

Service shall be continuous (firm), except for events as specified in the Service Contract including force majeure, up to the contracted firm daily demand and subject to curtailment or discontinuance, of demand in excess of the firm contract demand, upon the Company issuing a notice not less than 4 hours prior to the time at which such curtailment or discontinuance is to commence.

RATE:

Rates per cubic metre assume an energy content of 37.69 MJ/m³.

	Billing Month	
	December to March	April to November
Monthly Customer Charge		
The monthly customer charge shall be negotiated with the applicant and shall not exceed:	\$2,000.00	\$2,000.00
Delivery Charge		
Per cubic metre of Firm Contract Demand	18.0000 ¢/m ³	18.0000 ¢/m ³
Per cubic metre of gas delivered		
For the first 15 times Firm Contract Demand	0.5070 ¢/m ³	0.4507 ¢/m ³

Rate for Service Rights per cubic metre of
Daily Capacity Repurchase Quantity per day of curtailment:

1.0 ¢/m³

In addition, if the Applicant is supplying its own gas requirements, the gas delivered by the Applicant during the period of curtailment shall be purchased by the Company for the Company's use. As of October 1, 2001, the purchase price for such gas will be equal to the price that is reported for the month, in the first issue of the *Natural Gas Market Report* published by Canadian Enerdata Ltd. during the month, as the "current" "Avg." (i.e., average) "Alberta One-Month Firm Spot Price" for "AECO 'C' and Nova Inventory Transfer" in the table entitled "Domestic spot gas prices", adjusted for AECO to Empress transportation tolls and compressor fuel costs.

For the areas specified in Appendix A to this Rate Schedule, the Company's gas distribution network does not have sufficient physical capacity under current operating conditions to accommodate the provision of firm service to existing interruptible locations. For any location presently served or any new Applicant for service pursuant to this Rate Schedule in these areas, the Company shall purchase the rights to take service hereunder at 125% of the above-stated Rate for Service Rights.

UNAUTHORIZED OVERRUN GAS RATE:

When the Applicant takes Unauthorized Supply Overrun Gas, the Applicant shall purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.

On the second and subsequent occasions in a contract year when the Applicant takes Unauthorized Demand Overrun Gas, the Contract Demand shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively if necessary.

Should the Applicant fail to curtail its use of natural gas within the contracted time period or as ordered by the Company, the rate shall be increased by:

25.0 ¢/m³

The third instance of such failure in any contract year may result in the Applicant forfeiting the right to be served under this Rate Schedule. In such case service hereunder would cease, notwithstanding any Service Contract between the Company and the Applicant. Gas supply and/or transportation service would continue to be available to the Applicant pursuant to the provisions of the Company's Rate 6 until a Service Contract pursuant to another applicable Rate Schedule was executed.

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

4.3611 ¢/m³

TERMS AND CONDITIONS OF SERVICE:

The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after July 1, 2004 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 28

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation to a single Terminal Location of a specified maximum daily volume of natural gas. This rate is also applicable to volumes delivered to any applicant taking service under a Curtailment Delivered Supply contract with the Company.

CHARACTER OF SERVICE:

Service shall be continuous (firm) except for events as specified in the Service Contract including force majeure. The volume of gas taken by the Applicant at the Terminal Location must not vary by more than two percent (2%) from the Delivered Volume.

RATE:

The following rates and charges, as applicable, shall apply for deliveries to the Terminal Location.

	<u>Billing Month</u> October to September
Monthly Customer Charge	
The monthly customer charge shall be negotiated with the Applicant and shall not exceed:	\$2,000.00
Delivery Charge	
Per cubic metre of Contract Demand	
For the first 100,000 m ³	18.0000 ¢/m ³
For the next 100,000 m ³	12.0000 ¢/m ³
For all over 200,000 m ³	6.0000 ¢/m ³
Per cubic metre of gas delivered	
For the first 2,000,000 m ³ per month	0.4875 ¢/m ³
For the next 2,000,000 m ³ per month	0.4675 ¢/m ³
For all over 4,000,000 m ³ per month	0.4475 ¢/m ³
Direct Purchase Administration Charge	\$50.00
UFG Credit (If applicable)	0.3329 ¢/m ³

The UFG Credit is applicable if the Applicant contracts to supply a quantity of natural gas to supplement the Company's purchases for Unaccounted for Gas. (See Terms and Conditions of Service).

UNAUTHORIZED OVERRUN GAS RATE:

On the first occasion in a contract year when the Applicant, under a contract other than a Curtailment Delivered Supply contract, takes Unauthorized Overrun Gas the Applicant may elect to either:

- purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.
- adjust the Contract Demand to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively if necessary.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 29

On the second and subsequent occasions in a contract year when the Applicant takes Unauthorized Overrun Gas both (i) and (ii) shall apply.

When the Applicant under Curtailment Delivered Supply contract takes Unauthorized Overrun Gas the Applicant shall purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

0.3324 ¢/m³

TERMS AND CONDITIONS OF SERVICE:

1. The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.
2. Where an Applicant contracts to supply the Company with a volume of natural gas to supplement the Company's purchases for Unaccounted for Gas (UFG) the Applicant will be deemed to have delivered at the Point of Acceptance a volume of natural gas equal to 99.01 percent of the volume actually delivered by the Applicant. Such deemed volume of gas delivered shall be considered to be the volume of gas delivered as it applies to the Terms and Conditions of Service under this Rate Schedule.
3. Any volume of gas taken by the Applicant on a day at the Terminal Location which exceeds the lesser of:
 - (a) the sum of
 - (i) any applicable Load Balancing Demand pursuant to Rate 310 or any applicable Storage Demand pursuant to Rate 315
plus
 - (ii) the volume of gas delivered by the Applicant on that day
and
 - (b) the Contract Demand

shall be classified as Overrun Gas ("Overrun Gas").

Overrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant in the case of (a) above or two percent (2%) of the Contract Demand in the case of (b) above shall be debited to the Applicant's Banked Gas Account. Any remaining excess shall be classified as Unauthorized Overrun Gas.

4. Any volume of gas delivered by the Applicant on any day in excess of the sum of:
 - (i) any applicable Load Balancing Demand pursuant to Rate 310 or any applicable Storage Demand pursuant to Rate 315
plus
 - (ii) the volume of gas taken by the Applicant at the Terminal Location on that day

shall be classified as Underrun Gas.

Underrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant on that day (or, all underrun gas if deliveries are being made under a Curtailment Delivered Supply Contract), shall be credited to the Applicant's Banked Gas Account. Any remaining excess shall be classified as Unauthorized Underrun Gas and shall be deemed to have been offered for sale to the Company and the Company shall purchase such

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 30

Unauthorized Underrun Gas at a price of eighty percent (80%) of the Western Canada Buy Price in effect on that day.

5. If the Applicant has contracted for service under Rate 310 or Rate 315 for the Terminal Location and if on any day the volume delivered by the Applicant other than as Underrun Gas minus the volume taken by the Applicant other than as Overrun Gas ("Difference") is positive/negative then volumes equal to the Difference shall be deemed to be received / delivered under Rate 310 as load balancing gas or Rate 315 as gas received from or delivered to storage as applicable.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 3 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 31

APPLICABILITY:

To any Applicant who enters into a Service Contract with the Company to use the Company's natural gas distribution network for the transportation of a specified maximum daily volume of natural gas to a single Terminal Location in an area in which the Company does not have the capacity in its gas distribution network to provide firm service to existing interruptible customers and which can accommodate the total interruption of gas service when required by the Company.

CHARACTER OF SERVICE:

In addition to events as specified in the Service Contract including force majeure, service shall be subject to curtailment or discontinuance upon the Company issuing a notice not less than 4 hours prior to the time at which such curtailment or discontinuance is to commence. On each day in a period of interruption of service to the Terminal Location ordered by the Company, the Company shall purchase, at the rate of 33.2911 ¢/m³ the gas delivered by the Applicant on such day which is in excess of any applicable Load Balancing Demand or any applicable Storage Demand if the Company has accepted the Applicant's Nominated Volume for such day. The volume of gas taken by the Applicant at the Terminal Location must not vary by more than two percent (2%) from the Delivered Volume (see below).

RATE:

The following rates and charges, as applicable, shall apply for deliveries to the Terminal Location.

	<u>Billing Month</u> October to September
Customer Charge	
The monthly customer charge shall be negotiated with the Applicant and shall not exceed:	\$2,000.00
Delivery Charge	
For the first 2,000,000 m ³ per month	0.4875 ¢/m ³
For the next 2,000,000 m ³ per month	0.4675 ¢/m ³
For all over 4,000,000 m ³ per month	0.4475 ¢/m ³
Direct Purchase Administration Charge	\$50.00
UFG Credit (If applicable)	0.3329 ¢/m ³

The UFG Credit is applicable if the Applicant contracts to supply a quantity of natural gas to supplement the Company's purchases for Unaccounted for Gas. (See Terms and Conditions of Service).

UNAUTHORIZED OVERRUN GAS RATE:

On the first occasion in a contract year when the Applicant takes Unauthorized Overrun Gas the Applicant may elect to either:

- (i) purchase such gas at a rate of 150% of the highest daily price for the calendar month as published in the Gas Daily for the Niagara and Iroquois export points for the CDA and EDA respectively.
- (ii) adjust the Contract Demand to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively if necessary.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 32

On the second and subsequent occasions in a contract year when the Applicant takes Unauthorized Overrun Gas both (i) and (ii) shall apply.

Should the Applicant fail to curtail its use of natural gas within the contracted time period or as ordered by the Company the rate shall be increased by:

25.0 ¢/m³

The third instance of such failure in any contract year may result in the Applicant forfeiting the right to be served under this Rate Schedule. In such case service hereunder would cease, notwithstanding any Service Contract between the Company and the Applicant. Gas supply and/or transportation service would continue to be available to the Applicant pursuant to the provisions of the Company's Rate 6 until a Service Contract pursuant to another applicable Rate Schedule was executed.

MINIMUM BILL:

Per cubic metre of Annual Volume Deficiency
(See Terms and Conditions of Service):

0.3324 ¢/m³

TERMS AND CONDITIONS OF SERVICE:

1. The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.
2. Where an Applicant contracts to supply the Company with a volume of natural gas to supplement the Company's purchases for Unaccounted for Gas (UFG) the Applicant will be deemed to have delivered at the Point of Acceptance a volume of natural gas equal to 99.01 percent of the volume actually delivered by the Applicant. Such deemed volume of gas delivered shall be considered to be the volume of gas delivered as it applies to the Terms and Conditions of Service under this Rate Schedule.
3. Any volume of gas taken by the Applicant on a day at the Terminal Location which exceeds the lesser of:
 - (a) the sum of
 - (i) any applicable Load Balancing Demand pursuant to Rate 310 or any applicable Storage Demand pursuant to Rate 315
plus
 - (ii) the volume of gas delivered by the Applicant on that day
and
 - (b) the Contract Demand

shall be classified as Overrun Gas ("Overrun Gas").

Overrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant in the case of (a) above or two percent (2%) of the Contract Demand in the case of (b) above shall be debited to the Applicant's Banked Gas Account. Any remaining excess shall be classified as Unauthorized Overrun Gas.
4. Except on a day of interruption of service, any volume of gas delivered by the Applicant on any day in excess of the sum of:
 - (i) any applicable Load Balancing Demand pursuant to Rate 310 or any applicable Storage Demand pursuant to Rate 315
plus
 - (ii) the volume of gas taken by the Applicant at the Terminal Location on that day

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 33

shall be classified as Underrun Gas.

Underrun Gas up to a maximum of two percent (2%) of the volume delivered by the Applicant on that day shall be credited to the Applicant's Banked Gas Account. Any remaining excess shall be classified as Unauthorized Underrun Gas and shall be deemed to have been offered for sale to the Company and the Company shall purchase such Unauthorized Underrun Gas at a price of eighty percent (80%) of the Western Canada Buy Price in effect on that day.

Any volume of gas delivered by the Applicant and accepted by the Company on a day of interruption of service shall be purchased by the Company at the rate of 33.2911 ¢/m³ and shall not be classified as Underrun Gas.

5. If the Applicant has contracted for service under Rate 310 or Rate 315 for the Terminal Location and if on any day the volume delivered by the Applicant other than as Underrun Gas minus the volume taken by the Applicant other than as Overrun Gas ("Difference") is positive/negative then volumes equal to the Difference shall be deemed to be received / delivered under Rate 310 as load balancing gas or Rate 315 as gas received from or delivered to storage as applicable.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 3 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 34

APPLICABILITY:

To any Applicant who has entered into a Companion Service Contract with the Company for service under Rate 125, Rate 300 or Rate 305. The Applicant for service hereunder must enter into a Service Contract for a maximum daily volume of natural gas which the Company must deliver to or receive from the Applicant for load balancing purposes at the Terminal Location specified in the Companion Service Contract. Such Load Balancing Demand shall not exceed fifty percent (50%) of the Contract Demand specified in the Companion Service Contract.

CHARACTER OF SERVICE:

Service shall be continuous (firm) except for events as specified in the Service Contract including force majeure.

RATE:

The following rates and charges shall apply in respect to any Daily Difference between the volume of gas delivered by the Applicant other than as Underrun Gas under the Companion Service Contract and the volume of gas taken at the Terminal Location other than as Overrun Gas.

Monthly Demand and Commodity Charges:**Demand Charge**

Per cubic metre of Load Balancing Demand

13.5530 ¢/m³

Commodity Charge

Per cubic metre of Difference

4.2640 ¢/m³

MINIMUM BILL:

See Terms and Conditions of Service.

TERMS AND CONDITIONS OF SERVICE:

1. The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.
2. The actual volumes of gas received as or delivered as load balancing gas on a day shall be determined pursuant to the Terms and Conditions of Service of the Companion Rate Schedule applicable to the Companion Service Contract.
3. The Company shall keep a record ("Load Balancing Account") of the net volume of gas owing to or from the Applicant. Any debit or credit balance in the Load Balancing Account shall be cleared within 20 days of the end of the contract year.
4. If within 20 days of the end of each contract year in a continuing relationship any balance in the Applicant's Load Balancing Account with respect to the prior contract year has not been cleared, such balance shall be disposed of as follows:
 - (i) any debit balance shall be deemed to have been sold to the Applicant pursuant to the provisions of Rate 320 as if the gas had been consumed in equal portions during the months of December, January, February and March, of the contract year and the Applicant shall pay for such gas within ten (10) days of the rendering of a bill therefor.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 35

- (ii) any credit balance shall be deemed to have been tendered for sale to the Company and the Company shall purchase such gas at a price per cubic metre of eighty percent (80%) of the Western Canada Buy Price in effect at the end of the contract year.

EFFECTIVE DATE:

To apply to bills rendered for gas service provided on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 36

APPLICABILITY:

To any Applicant who has entered into a Companion Service Contract with the Company for service under Rate 125, Rate 300 or Rate 305. The Applicant for service hereunder must enter into a Service Contract with the Company for a maximum daily volume of natural gas which the Company must receive from storage for transportation to a single Terminal Location specified in the Companion Service Contract. The Service Contract shall also specify a minimum annual capacity of storage space of sixty (60) times the Storage Demand.

CHARACTER OF SERVICE:

Service shall be continuous (firm) except for events as specified in the Service Contract including force majeure. The maximum daily volume of natural gas that the Company must receive for injection to storage shall be sixty percent (60%) of the Storage Demand.

RATE:

The following rates and charges shall apply in respect to all gas received by the Company from and delivered by the Company to storage on behalf of the Applicant.

Monthly Demand and Commodity Charges:**Demand Charge**

Per cubic metre of Storage Demand	13.6693 ¢/m ³
Per cubic metre of Space Demand	0.0382 ¢/m ³

Commodity Charge

Per cubic metre of gas delivered to / received from storage	0.3842 ¢/m ³
--	-------------------------

FUEL RATIO REQUIREMENT:

The Fuel Ratio per unit of gas injected and withdrawn is 0.35%.

MINIMUM BILL:

See Terms and Conditions of Service.

TERMS AND CONDITIONS OF SERVICE:

1. The provisions of PARTS III and IV of the Company's **HANDBOOK OF RATES AND DISTRIBUTION SERVICES** apply, as contemplated therein, to service under this Rate Schedule.
2. A Nominated Volume will not be accepted for withdrawal if greater than:
 - (i) the Storage Demand
 - (ii) the balance of gas in storage on the day of a withdrawal nomination.
3. A Nominated Volume will not be accepted for injection if greater than:
 - (i) sixty percent (60%) of the Storage Demand
 - (ii) the difference between the Space Demand and the balance of gas in storage on the day of an injection nomination.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 37

4. The actual volumes of gas received from and delivered to storage on a day shall be determined pursuant to the Terms and Conditions of Service of the Companion Rate Schedule applicable to the Companion Service Contract.
5. The Company shall keep a record of the net volume of gas owing to the Applicant.
6. If the Service Contract is renewed the Applicant may elect to carry any balance of gas in storage at the end of the current Service Contract forward into the renewal Service Contract, provided that such carry forward quantity shall not exceed the Space Demand under the renewal Service Contract.
7. The Applicant shall give notice in writing at least ninety (90) days in advance of the end of the contract year that it will not be renewing the Service Contract and in such notice shall advise the Company of its plans to dispose of any balance of gas in storage as of the date of giving such notice. Any balance not withdrawn by the end of the contract year shall be forfeited to, and be the property of, the Company.

EFFECTIVE DATE:

To apply to bills rendered for gas service provided on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 38

APPLICABILITY:

To any Applicant whose delivery of natural gas to the Company for transportation to a Terminal Location has been interrupted prior to the delivery of such gas to the Company.

CHARACTER OF SERVICE:

The volume of gas available for backstopping in any day shall be determined by the Company exercising its sole discretion. If the aggregate daily demand for service under this Rate Schedule exceeds the supply available for such day, the available supply shall be allocated to firm service customers on a first requested basis and any balance shall be available to interruptible customers on a first requested basis.

RATE:

The rates applicable in the circumstances contemplated by this Rate Schedule, in lieu of the Gas Supply Charges specified in any of the Company's other Rate Schedules pursuant to which the Applicant is taking service, shall be as follows:

	Billing Month	
	December to March	April to November
Gas Supply Charge Per cubic metre of gas sold	32.0251 ¢/m ³	31.6955 ¢/m ³

provided that if upon the request of an Applicant, the Company quotes a rate to apply to gas which is delivered to the Applicant at a particular Terminal Location on a particular day or days and to which this Rate Schedule is applicable (which rate shall not be less than the Company's avoided cost in the circumstances at the time nor greater than the otherwise applicable rate specified above), then the Gas Supply Charge applicable to such gas shall be the rate quoted by the Company.

EFFECTIVE DATE:

To apply to bills rendered for gas consumed by customers on and after July 1, 2004 under Sales Service, including Buy/Sell Arrangements, and Transportation Service. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 1
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 39

APPLICABILITY AND CHARACTER OF SERVICE:

Service under this rate schedule shall apply to the Transmission and Compression Service Agreement with Union Gas Limited dated April 1, 1989, and the Transmission, Compression and Pool Storage Service Agreement with Centra Gas Ontario Inc. dated May 30, 1994. Service shall be provided subject to the terms and conditions specified in the Service Agreement.

RATE:

The Customer shall pay for service rendered in each month in a contract year, the sum of the following applicable charges:

	Transmission & Compression \$/10 ³ m ³	Pool Storage \$/10 ³ m ³
Demand Charge for:		
Annual Turnover Volume	0.1863	0.2291
Maximum Daily Withdrawal Volume	16.9914	21.0441
Commodity Charge	1.6920	0.6810

FUEL RATIO REQUIREMENT:

Fuel Ratio applicable to per unit of gas injected and withdrawn is 0.35%.

REVENUE SHARING CREDIT:

The unit rates stated below shall apply as credits to the monthly bill.

	Daily Demand \$/10 ³ m ³	Annual Demand \$/10 ³ m ³
Transmission and Compression	2.8860	0.0321
Pool Storage	2.8135	0.0306

MINIMUM BILL:

The minimum monthly bill shall be the sum of the applicable Demand Charges as stated in Rate Section above.

EXCESS VOLUME AND OVERRUN RATES:

In addition to the charges provided for in the Rate Section above, the Customer shall pay, for services rendered, the sum of the following applicable charges as they are incurred:

TERMS AND CONDITIONS OF SERVICE:

1. Excess Volumes will be billed at the total of the Excess Volume Charges as stated above.
2. Transmission and Compression, and Pool Storage Overrun Service will be billed according to the following:
 - (a) At the end of each month, in a contract year, the Company will make a determination, for each day in the month, of

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 1 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 40

- (i) the difference between the volume of gas actually delivered, exclusive of the fuel volume, for Customer's account into the Company System, at the Point of Delivery and the Customer's Maximum Daily Injection Volume, and
- (ii) the difference between the volume of gas actually delivered, exclusive of the fuel volume, for Customer's account from the Company System, at the Point of Delivery, and the Customer's Maximum Daily Withdrawal Volume.

	Excess Volume Charge \$/10 ³ m ³ / Year	Overrun Charge \$/10 ³ m ³ / Day
Transmission & Compression		
Authorized	2.4591	0.5586
Unauthorized	-	224.2870
Pool Storage		
Authorized	3.0235	0.6919
Unauthorized	-	277.7821

- (b) For each day of the month, where any such differences exceed 2.0 percent of the Customer's relevant Maximum Daily Injection Volume and/or Maximum Daily Withdrawal Volume, the Customer shall pay a charge equal to the relevant Overrun rates, as stated above, for such differences.

BILLING ADJUSTMENT:

1. Injection deficiency - If at the beginning of any Withdrawal Period the Customer's Storage Balance is less than the Customer's Annual Turnover Volume, due solely to the Company's inability to inject gas for any reason other than the fault of the Customer, then the applicable Demand Charge for Annual Turnover Volume for the contract year beginning the prior April 1 as stated in Rate Section as applicable, shall be adjusted by multiplying each by a fraction, the numerator of which shall be the Customer's Storage Gas Balance as of the beginning of such Withdrawal Period and the denominator shall be the Customer's Annual Turnover Volume as it may have been established for the then current year.
2. Withdrawal deficiency - If in any month in a contract year for any reason other than the fault of the Customer, the Company fails or is unable to deliver during any one or more days, the amount of gas which the Customer has nominated, up to the maximum volumes which the Company is obligated by the Agreement to deliver to the Customer, then the Demand Charge for maximum Contract Daily Withdrawal Volume in the contract year otherwise payable for the month in which such failure occurs, as stated in Rate Section above, as applicable, shall be reduced by an amount for each day of deficiency to be calculated as follows: The Demand Charge for maximum Contract Daily Withdrawal Volume for the contract year for the month will be divided by 30.4 and the result obtained will then be multiplied by a fraction, the numerator being the difference between the nominated volume for such day and the delivered volume for such day and the denominator being the Customer's maximum Contract Daily Withdrawal Volume for such contract year.

TERMS AND EXPRESSIONS:

In the application of this Rate Schedule to each of the Agreements, terms and expressions used in this Rate Schedule have the meanings ascribed thereto in such Agreement.

EFFECTIVE DATE: July 1, 2004	IMPLEMENTATION DATE: July 1, 2004	BOARD ORDER: EB-2004-0266	REPLACING RATE EFFECTIVE: April 1, 2004	Page 2 of 3 Handbook 41
---------------------------------	--------------------------------------	------------------------------	--	----------------------------

RATE NUMBER: **325**

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 3 of 3
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 42

APPLICABILITY:

To any Applicant who enters into a Storage Contract with the Company for delivery by the Applicant to the Company and re-delivery by the Company to the Applicant of a volume of natural gas owned by the Applicant.

CHARACTER OF SERVICE:

Service under this rate is for Full Cycle or Short Cycle storage service; with firm or interruptible injection and withdrawal service, all as may be available from time to time.

RATE:

The following rates and charges shall apply in respect of all gas received by the Company from and re-delivered by the Company to the Applicant.

	Full Cycle		Short Cycle
	Firm	Interruptible	
	\$/10 ³ m ³	\$/10 ³ m ³	\$/10 ³ m ³
Monthly Demand Charge per unit of Annual Turnover Volume:			
Minimum	0.3524	0.3524	-
Maximum	2.0140	2.0140	-
Monthly Demand Charge per unit of Contracted Daily Withdrawal:			
Minimum	32.3355	25.8684	-
Maximum	184.4775	147.5820	-
Commodity Charge per unit of gas delivered to / received from storage:			
Minimum	2.3730	2.3730	1.0130
Maximum	11.8650	11.8650	42.3944

FUEL RATIO REQUIREMENT:

The Fuel Ratio per unit of gas injected and withdrawn is 0.35%.

TRANSACTING IN ENERGY:

The conversion factor is 37.74MJ/m³, which corresponds to Union Gas' System Wide Average Heating Value, as per the Board's RP-1999-0017 Decision with Reasons.

MINIMUM BILL:

The minimum monthly bill shall be the sum of the applicable Demand Charges.

Unauthorized Overrun Annual Turnover Volume Excess Storage Balance September 1 - November 30	423.9438	423.9438	423.9438
December 1 - October 31	42.3944	42.3944	42.3944
Unauthorized Overrun Annual Turnover Volume Negative Storage Balance			

TERMS AND CONDITIONS OF SERVICE:

1. All Services are available at the Company's sole discretion.
2. Delivery and Re-delivery of the volume of natural gas shall be from/to the facilities of Union Gas Limited and / or TransCanada PipeLines Limited in Dawn Township and/or Niagara Gas Transmission Limited in Moore Township.
3. The Customers daily injections or withdrawals will be adjusted to provide for the fuel ratio stated in the Fuel Ratio Section. In the event that a Short Cycle service does not require fuel for injection and/or withdrawal, the fuel ratio commodity charge may be waived.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

EFFECTIVE DATE:	IMPLEMENTATION DATE:	BOARD ORDER:	REPLACING RATE EFFECTIVE:	Page 2 of 2
July 1, 2004	July 1, 2004	EB-2004-0266	April 1, 2004	Handbook 44

APPLICABILITY:

To any Applicant who enters into a Contract with the Company for transportation on the Company's Tecumseh Transmission System.

CHARACTER OF SERVICE:

Service under this rate is for firm transportation service as may be available from time to time.

RATE:

The following rates and charges shall apply in respect of all gas received by the Company from and re-delivered by the Company to the Applicant.

	Firm \$/10 ³ m ³	Interruptible \$/10 ³ m ³
Monthly Demand Charge per unit of Maximum Contracted Daily Delivery:	3.8562	-
Commodity Charge per unit of gas delivered:	-	0.1520

REVENUE SHARING CREDIT:

The unit rates stated below shall apply as credits to the monthly bill.

Daily Demand \$/10 ³ m ³
2.8860

MINIMUM BILL:

The minimum monthly bill shall be the sum of the applicable Demand Charges.

TERMS AND CONDITIONS OF SERVICE:

1. Delivery of the volume of natural gas by the Applicant shall be at the interconnection of the Company's Tecumseh transmission facilities with that of Niagara Gas Transmission Limited at the Tecumseh Compressor Station.
2. Re-delivery of the volume of natural gas shall be at the interconnection of the Company's facilities with those of interconnecting pipelines in Dawn Township.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

Page 1 of 1
Handbook 46

APPLICABILITY:

This rider is applicable to any Applicant who enters into Gas Transportation Agreement with the Company under any rate other than Rates 125, 300 and 305.

MONTHLY DIRECT PURCHASE ADMINISTRATION CHARGE:

Base Charge	\$50.00 per month
Maximum Charge	\$815.00 per month
Account Charge	
New Accounts	\$0.50 per month per account
Renewal Accounts	\$0.15 per month per account

The above Basic Charge shall be increased up to the maximum charge, by the new account charge for each new account and by the Renewal Account charge for each renewal account in a Direct Purchase Contract.

T-SERVICE CREDIT:

In T-Service Arrangements excluding Ontario ABC-T arrangements, between the Company and an Applicant, and with a T-Service Arrangement and a contractually specified Point of Acceptance as indicated below, the Company shall pay or charge the Applicant the Transportation Service Credit or Debit shown for any volumes of natural gas owned by the Applicant and received by the Company at the Point of Acceptance. The ability of the Company to accept deliveries under FT-type arrangements at Dawn is constrained and the availability of this service is at the Company's sole discretion.

TOLLS CREDIT Point of Acceptance	Type of Arrangement
	Firm Transportation (FT)
	Firm Service Tendered (FST)
Western Canada	0.0000 ¢/m ³
CDA, EDA	4.6189 ¢/m ³
Dawn	4.0892 ¢/m ³
<i>Intra-Alberta</i>	-0.6194 ¢/m ³
	N/A

Effective February 1, 2001, in Ontario ABC-T arrangements with a contractually specified Point of Acceptance in the CDA and/or EDA, the toll credit shall equal the Eastern Zone Firm Transportation tolls approved by the National Energy Board for TCPL at a 100% load factor.

TCPL FT CAPACITY TURNBACK:

APPLICABILITY:

To Ontario T-Service customers who have been or will be assigned TCPL capacity by the Company.

TERMS AND CONDITIONS OF SERVICE:

1. The Company will accommodate TCPL FT capacity turnback from customers to the extent that the Company is allowed to turnback FT capacity to TCPL.

EFFECTIVE DATE: July 1, 2004	IMPLEMENTATION DATE: July 1, 2004	BOARD ORDER: EB-2004-0266	REPLACING RATE EFFECTIVE: April 1, 2004	Page 1 of 2 Handbook 47
---------------------------------	--------------------------------------	------------------------------	--	----------------------------

2. The Company will accommodate all TCPL FT capacity turnback requests in a manner that minimizes stranded and other transitional costs. The Company is committed to maintaining the integrity of its distribution system and the sanctity of all contracts.
3. The Company may amend any contracts to accommodate a customer's request to turnback capacity.
4. Notice of TCPL FT turnback capacity will be accepted on Enbridge's Election for Enbridge Firm Transportation Assignment form or other authorized written notice.
5. The daily contractual right to receive natural gas would still be subject to the delivery, on a firm basis, of the full Mean Daily Volume into the Company's Central Delivery Area (CDA) and/or Eastern Delivery Area (EDA). The delivery area must match the area in which consumption will occur.
6. The proportion of TCPL FT capacity that an eligible customer may request to be turned back each year ("percentage turnback") shall not exceed the proportion of the TCPL capacity that Enbridge is entitled to turn back that year. This percentage turnback will be applied to calculate the customer's turnback capacity limit based on the renewal volume of the direct purchase agreement.
7. If the Company is unable to accommodate all or a portion of an eligible customer's request to turnback TCPL FT capacity in the month requested by the customer, the Company will indicate the month(s) when such customer request can be fully satisfied and the costs, if any, associated with accommodating this request. The customer may then advise the Company as to whether or not they wish to proceed with the TCPL FT capacity turnback request.
8. All TCPL FT capacity turnback requests will be treated on an equitable basis.
9. Customers may withdraw their original election given they provide notice to the Company a minimum of one week prior to the deadline specified in the TransCanada tariff for FT contract extension.
10. The percentage turnback of TCPL FT capacity will be applied at the Direct Purchase Agreement level.
11. Written notice to turnback capacity must be received by the Company the earlier of:
 - (a) Sixty days prior to the expiry date of the current contract.
 - or
 - (b) A minimum of one week prior to the deadline specified in TransCanada tariff for FT contract extension.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

APPLICABILITY:

This rider is applicable to any Applicant who entered into a Gas Purchase Agreement with the Company, prior to April 1, 1999, to sell to the Company a supply of natural gas.

MONTHLY DIRECT PURCHASE ADMINISTRATION CHARGE:

Base Charge	\$50.00 per month
Maximum Charge	\$815.00 per month
Account Charge	
New Accounts	\$0.50 per month per account
Renewal Accounts	\$0.15 per month per account

The above Basic Charge shall be increased up to the maximum charge, by the new account charge for each new account and by the Renewal Account charge for each renewal account in a Direct Purchase Contract.

BUY / SELL PRICE:

In Buy/Sell Arrangements between the Company and an Applicant, the Company shall buy the Applicants gas at the Company's actual FT-WACOG price determined on a monthly basis in the manner approved by the Ontario Energy Board. For Western Buy/Sell arrangements the FT-WACOG price shall be reduced by pipeline transmission costs. The Company's rates include an annual FT-WACOG of 32.512 ¢/m³ of gas containing 37.69 MJ/m³.

FT FUEL PRICE:

The FT fuel price used to establish the Buy price in Western Buy/Sell arrangements without fuel will be determined monthly based upon the actual FT-WACOG. The forecast annual FT-WACOG referenced above includes an average of 1.5514 ¢/m³ for fuel.

EFFECTIVE DATE:

To apply to bills rendered for gas delivered on and after July 1, 2004. This rate schedule is effective July 1, 2004 and replaces the identically numbered rate schedule that specifies, as the Effective Date, April 1, 2004 and that indicates, as the Board Order, EB-2004-0209.

New Rate Information

July 2004

Residential Customers - Rate 1 (*System gas and buy/sell customers*)

Natural gas prices have increased

The Ontario Energy Board ("OEB") has approved an increase to Enbridge Gas Distribution's natural gas supply and delivery rates effective July 1, 2004. These increases are due to higher natural gas commodity prices.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. These rates are shown on the reverse side of this notice.

Gas Supply Charge

The Gas Supply Charge has increased to 28.0562 cents per cubic metre (" ¢/m^3 ") from 24.0708 ¢/m^3 . The price is based on a forecast of natural gas market prices during the next twelve months. Natural gas is a commodity and as such is subject to fluctuations in price based on supply and demand.

The supply and demand for natural gas is affected by many factors including: the price of crude oil, gas storage levels, weather, forecast of economic growth, and political issues affecting global energy prices.

Enbridge Gas Distribution does not make a profit on the price of natural gas. Customers pay the same price as Enbridge Gas Distribution. The price is reviewed every three months and will be adjusted accordingly to reflect market changes.

Delivery Charge

The increase in the Delivery Charge is due to higher commodity-related costs for the coming year. They include the cost of carrying higher priced natural gas in storage. Natural gas is kept in storage to help ensure there is an adequate supply of natural gas to meet the needs of all customers.

Changes for a typical customer

The impact of this change will depend on how much gas you use. For a typical residential heating and water heating customer using 3,064 cubic metres per year, who buys their gas supply from the utility, the increase will amount to approximately \$126 annually. Of this amount \$122 relates to the Gas Supply Charge and \$4 relates to the Delivery Charge.

Enbridge Gas Distribution provides safe, reliable distribution of natural gas to customers. For more information about Enbridge Gas Distribution call 1-800-263-2212 or visit www.enbridge.com/gas.

New Rate Information

July 2004

Residential Customers - Rate 1 (ABC-T Customers)

Natural Gas prices have increased

The Ontario Energy Board ("OEB") has approved an increase to Enbridge Gas Distribution's natural gas supply and delivery rates effective July 1, 2004. These increases are due to higher natural gas commodity prices.

The change in the delivery costs will impact your bill. However, the price you pay for the natural gas commodity depends on the terms of your agreement with your gas marketer.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. The rates are on the reverse side of this notice.

Delivery Charge

The increase in the Delivery Charge is due to higher commodity-related costs for the coming year. They include the cost of carrying higher priced natural gas in storage. Natural gas is kept in storage to help ensure there is an adequate supply of natural gas to meet the needs of all customers.

Changes for a typical customer

The impact of this rate change will depend on how much gas you use. For a typical residential heating and water heating customer using 3,064 cubic metres per year, who buys their gas from a gas marketer, the increase will amount to approximately \$4 annually.

Enbridge Gas Distribution reviews prices every three months and will adjust the delivery rate we charge our customers accordingly to reflect market changes.

Enbridge Gas Distribution provides safe, reliable delivery of natural gas to our customers. For more information, call 1-800-263-2212 or visit www.enbridge.com/gas.

New Rate Information

July 2004

Commercial/ Industrial Customers - Rate 6 (*System Gas and buy/sell customers*)

Natural gas prices have increased

The Ontario Energy Board ("OEB") has approved an increase to Enbridge Gas Distribution's natural gas supply and delivery rates effective July 1, 2004. These increases are due to higher natural gas commodity prices.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. These rates are shown on the reverse side of this notice.

Gas Supply Charge

The Gas Supply Charge has increased to 28.1283 cents per cubic metre (" ¢/m^3 ") from 24.1429 ¢/m^3 . The price is based on a forecast of natural gas market prices during the next twelve months. Natural gas is a commodity and as such is subject to fluctuations in price based on supply and demand.

The supply and demand for natural gas is affected by many factors including: the price of crude oil, gas storage levels, weather, forecast of economic growth, and political issues affecting global energy prices.

Enbridge Gas Distribution does not make a profit on the price of natural gas. Customers pay the same price as Enbridge Gas Distribution. The price is reviewed every three months and will be adjusted accordingly to reflect market changes.

Delivery Charge

The increase in the Delivery Charge is due to higher commodity-related costs for the coming year. They include the cost of carrying higher priced natural gas in storage. Natural gas is kept in storage to help ensure there is an adequate supply of natural gas to meet the needs of all customers.

Changes for a typical customer

The impact of this change will depend on how much gas you use. For an average commercial and industrial customer using 22,606 cubic metres annually, who buys their gas supply from the utility, the increase will amount to approximately \$936 per year or 11% annually. Of this amount \$901 relates to the Gas Supply Charge and \$35 relates to the Delivery Charge.

Enbridge Gas Distribution provides safe, reliable distribution of natural gas to customers. For more information about Enbridge Gas Distribution call 1-800-263-2212 or visit www.enbridge.com/gas.

New Rate Information

July 2004

Commercial/Industrial Customers - Rate 6 (ABC-T Customers)

Natural Gas prices have increased

The Ontario Energy Board ("OEB") has approved an increase to Enbridge Gas Distribution's natural gas supply and delivery rates effective July 1, 2004. These increases are due to higher natural gas commodity prices.

The change in the delivery rates will impact your bill. However, the price you pay for the natural gas commodity depends on the terms of your agreement with your gas marketer.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. The rates are on the reverse side of this notice.

Delivery Charge

The increase in the Delivery Charge is due to higher commodity-related costs for the coming year. They include the cost of carrying higher priced natural gas in storage. Natural gas is kept in storage to help ensure there is an adequate supply of natural gas to meet the needs of all customers.

Changes for a typical customer

The impact of this rate change will depend on how much gas you use. For an average commercial and industrial customer using 22,606 cubic metres annually, who buys their gas from a gas marketer, the increase will amount to approximately \$35 per year or 1.1% annually.

Enbridge Gas Distribution reviews prices every three months and will adjust the delivery rate we charge our customers accordingly to reflect market changes.

Enbridge Gas Distribution provides safe, reliable delivery of natural gas to our customers. For more information, call 1-800-263-2212 or visit www.enbridge.com/gas.

New Rate Information

July 2004

Container Service Customer Notice – Rate 9

Natural gas prices have increased

The Ontario Energy Board (“OEB”) has approved an increase to Enbridge Gas Distribution’s natural gas supply and a decrease in delivery rates effective July 1, 2004. The increase is due to higher natural gas commodity prices.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. These rates are shown on the reverse side of this notice.

Gas Supply Charge

The Gas Supply Charge has increased to 27.8049 cents per cubic metre (“¢/m³”) from 23.8196 ¢/m³. The price is based on a forecast of natural gas market prices during the next twelve months. Natural gas is a commodity and as such is subject to fluctuations in price based on supply and demand.

The supply and demand for natural gas is affected by many factors including: the price of crude oil, gas storage levels, weather, forecast of economic growth, and political issues affecting global energy prices.

Enbridge Gas Distribution does not make a profit on the price of natural gas. Customers pay the same price as Enbridge Gas Distribution. The price is reviewed every three months and will be adjusted accordingly to reflect market changes.

Delivery Charge

The decrease in the Delivery Charge is due to lower costs to transport gas.

How will you be affected?

The overall impact of this rate change will depend on the amount of gas that your organization uses. On average, the increase will amount to approximately 11% annually.

For further information

Enbridge Gas Distribution appreciates the opportunity to serve you and looks forward to the continuation of our business relationship. If you require further information with respect to this rate change, please call your Enbridge office. The telephone number is located on the front of your bill. Also, visit our website at: www.enbridge.com/gas.

New Rate Information

July 2004

Transportation Service Customer Notice – Rate 9

Natural gas prices have increased

The Ontario Energy Board (“OEB”) has approved an increase to Enbridge Gas Distribution’s natural gas supply and a decrease in delivery rates effective July 1, 2004. The increase is due to higher natural gas commodity prices.

The change in the delivery rates will impact your bill. However, the price you pay for the natural gas commodity depends on the terms of your agreement with your producer or gas marketer.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. The rates are on the reverse side of this notice.

Delivery Charge

The decrease in the Delivery Charge is due to lower costs to transport gas.

How will you be affected?

When combined, these rate changes represent an annual decrease of approximately 0.5% on the total bill. The overall impact of this rate change will depend on the amount of gas that your organization uses.

Enbridge Gas Distribution reviews prices every three months and will adjust the price we charge our customers for natural gas accordingly to reflect market changes.

For further information

Enbridge appreciates the opportunity to serve you and looks forward to the continuation of our business relationship. If you require any further information with respect to this rate change, please call your Enbridge office. The telephone number is located on the front of your bill. Also, visit our website at: www.enbridge.com/gas.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. These rates are shown on the reverse side of this notice.

Gas Supply Charge

The Gas Supply Charge has increased to 28.0081 cents per cubic metre (“¢/m³”) from 24.0227 ¢/m³. The price is based on a forecast of natural gas market prices during the next twelve months. Natural gas is a commodity and as such is subject to fluctuations in price based on supply and demand.

The supply and demand for natural gas is affected by many factors including: the price of crude oil, gas storage levels, weather, forecast of economic growth, and political issues affecting global energy prices.

Enbridge Gas Distribution does not make a profit on the price of natural gas. Customers pay the same price as Enbridge Gas Distribution. The price is reviewed every three months and will be adjusted accordingly to reflect market changes.

Gas Supply Load Balancing Charge

The increase in the Gas Supply Load Balancing Charge is due to an increase in the cost of carrying higher priced natural gas in storage. Natural Gas is kept in storage to help ensure there is adequate supply of natural gas to meet the needs of all customers.

Delivery Charge

The increase in the Delivery Charge is due to higher costs for gas losses on the distribution and storage systems.

How will you be affected?

The overall impact of this rate change will depend on the amount of gas that your organization uses. On average, the increase will amount to approximately 12% annually.

For further information

Enbridge Gas Distribution appreciates the opportunity to serve you and looks forward to the continuation of our business relationship. If you require further information with respect to this rate change, please call your Enbridge office. The telephone number is located on the front of your bill. Also, visit our website at: www.enbridge.com/gas.

Transportation Service Customer Notice – Rate 100

Natural Gas prices have increased

The Ontario Energy Board (“OEB”) has approved an increase to Enbridge Gas Distribution’s natural gas supply, load balancing and delivery rates effective July 1, 2004. These increases are due to higher natural gas commodity prices.

The change in the load balancing and delivery rates will impact your bill. However, the price you pay for the natural gas commodity depends on the terms of your agreement with your producer or gas marketer.

Your current bill has been calculated using the new approved rates for gas consumed from July 1, 2004 onwards. The rates are on the reverse side of this notice.

Gas Supply Load Balancing Charge

The increase in the Gas Supply Load Balancing Charge is due to an increase in the cost of carrying higher priced natural gas in storage. Natural gas is kept in storage to help ensure there is an adequate supply of natural gas to meet the needs of all customers.

Delivery Charge

The increase in the Delivery Charge is due to higher costs for gas losses on the distribution and storage systems.

How will you be affected?

These rate changes represent an annual increase of approximately 1% on the total bill. The overall impact of this rate change will depend on the amount of gas that your organization uses.

Enbridge Gas Distribution reviews prices every three months and will adjust the price we charge our customers accordingly to reflect market changes.
