

**DISTRIBUTION TARIFF ON APRIL 1, 2008
ET JUSTIFICATION DES MODIFICATIONS
VERSION ANGLAISE**

CHAPTER 2 Domestic Rates

Distribution Tariff
Effective April 1, 2007

Version révisée

Justification de la modification

Section 1 General

2.1 Application of domestic rates

The domestic rates apply only to contracts under which electricity is delivered for domestic use, apart from the exceptions provided for in this chapter.

2.2 Metering of electricity in apartment buildings

In apartment buildings, the electricity may be metered separately or in bulk, at the discretion of the owner or all the co-owners, as the case may be.

2.3 Customer's choice

Customers to whom this chapter applies may choose among the domestic rates they are entitled to, subject to the conditions of application, and the applicable general rate.

2.4 Definition

In this chapter, the following definition applies:

"multiplier": The factor used to multiply the fixed charge for rates DM and DT, as well as to multiply the number of kilowatthours for the first tier of Rate DM.

Section 2 Rate D

2.5 Application

Rate D applies to a contract for domestic use in a dwelling whose electricity is metered separately.

Section 1 General

2.1 Application of domestic rates

The domestic rates apply only to contracts under which electricity is delivered for domestic use, apart from the exceptions provided for in this chapter.

2.2 Metering of electricity in apartment buildings

In apartment buildings, the electricity may be metered separately or in bulk, at the discretion of the owner or all the co-owners, as the case may be.

2.3 Customer's choice

Customers to whom this chapter applies may choose among the domestic rates they are entitled to, subject to the conditions of application, and the applicable general rate.

2.4 Definition

In this chapter, the following definition applies:

"multiplier": The factor used to multiply the fixed charge for rates DM and DT, as well as to multiply the number of kilowatthours for the first tier of Rate DM.

Section 2 Rate D

2.5 Application

Rate D applies to a contract for domestic use in a dwelling whose electricity is metered separately. [It also applies to a contract for electricity delivered to an apartment building or community](#)

CHAPTER 2 Domestic Rates

Distribution Tariff Effective April 1, 2007

Version révisée

Justification de la modification

Barring provisions to the contrary, it does not apply:

- to hotels, motels, inns or other establishments covered in the *Act Respecting Tourist Accommodation Establishments*;
- to hospitals, clinics, pavillons d'accueil, long-term care facilities, or other establishments covered in the *Act Respecting Health Services and Social Services*.

2.6 Structure of Rate D

The structure of Rate D is as follows:

40.64¢ fixed charge per day, plus

5.29¢ per kilowatthour for the first 30 kilowatthours per day;

7.03¢ per kilowatthour for the remaining consumption.

During the winter period, when the maximum power demand exceeds 50 kilowatts, the excess is billed at the monthly price of \$5.46 per kilowatt. When a consumption period to which this demand charge applies overlaps the beginning or end of the winter period, the charge is prorated to the number of days in the consumption period that fall within the winter period.

If appropriate, the credit for supply, as described in Article 10.3, applies.

2.7 Apartment building or community residence with dwellings -- Separate metering

residence with dwellings, for which separate or bulk metering has been chosen by the owner or all the co-owners, as the case may be. If bulk metering was chosen, construction of the building must have begun on or after April 1, 2008.

Barring provisions to the contrary, it does not apply:

- to hotels, motels, inns or other establishments covered in the *Act Respecting Tourist Accommodation Establishments*;
- to hospitals, clinics, pavillons d'accueil, long-term care facilities, or other establishments covered in the *Act Respecting Health Services and Social Services*.

2.6 Structure of Rate D

The structure of Rate D is as follows:

40.64¢ fixed charge per day, plus

5.29¢ per kilowatthour for the first 30 kilowatthours per day;

7.03¢ per kilowatthour for the remaining consumption.

During the winter period, when the maximum power demand exceeds 50 kilowatts, the excess is billed at the monthly price of \$5.46 per kilowatt. When a consumption period to which this demand charge applies overlaps the beginning or end of the winter period, the charge is prorated to the number of days in the consumption period that fall within the winter period.

If appropriate~~applicable~~, the credit for supply, as described in Article 10.3, applies.

2.7 Apartment building or community residence with-consisting of dwellings -- Separate metering

CHAPTER 10 Supplementary Provisions

Distribution Tariff Effective April 1, 2007

Version révisée

Justification de la modification

Section 1 General

10.1 Choice of rate

Unless otherwise provided for in this Distributor's Rates and Conditions of Application:

- a) Any customer eligible for different rates may, at the beginning of his contract, choose the rate he prefers. In the case of an annual contract, the customer may make a written request for a change during the term of the contract;
- b) A change of rate as provided for in subparagraph a) above may not be made before expiration of a 12-month period after a previous change made in accordance with this article. The change of rate becomes applicable, at the customer's discretion, either at the beginning of the consumption period during which the Distributor receives the customer's written request, or at the beginning of any subsequent consumption period;
- c) In the case of a new contract and only during the first 12 monthly periods, the customer may once opt for another rate for which the customer is eligible. The change of rate becomes applicable, at the customer's discretion, either at the beginning of the contract, at the beginning of any one of the consumption periods, or at the beginning of any subsequent consumption period.

To obtain this revision, the customer must make the request in writing to the Distributor before the end of the 14th monthly period following the date of the beginning of the contract.

This provision applies only if the customer's current contract is an annual one.

Section 1 General

10.1 Choice of rate

Unless otherwise provided for in this Distributor's Rates and Conditions ~~of Application~~:

- a) Any customer eligible for ~~different rates~~ more than one rate may, at the beginning of ~~his~~ its contract, choose the rate ~~he~~ it prefers. In the case of an annual contract, the customer may make a written request for a change during the term of the contract;
- b) A change of rate as provided for in subparagraph a) above may not be made before expiration of a 12-month period after a previous change made in accordance with this article. The change of rate becomes applicable, at the customer's discretion, either at the beginning of the consumption period during which the Distributor receives the customer's written request, or at the beginning of any subsequent consumption period;
- c) In the case of a new contract and only during the first 12 monthly periods, the customer may ~~once~~ opt once for another rate for which the customer is eligible. The change of rate becomes applicable, at the customer's discretion, either at the beginning of the contract, at the beginning of any one of the consumption periods, or at the beginning of any subsequent consumption period.

To obtain this revision, the customer must make the request in writing to the Distributor before the end of the 14th monthly period following the date of the beginning of the contract.

This provision applies only if the customer's current contract is an annual one.

CHAPTER 10 Supplementary Provisions

Distribution Tariff Effective April 1, 2007

Version révisée

Justification de la modification

The provisions of this article do not apply to the following changes:

Rate G to Rate M or vice versa;

Rate M to Rate L or vice versa.

10.2 Credit for supply at medium or high voltage

When the Distributor supplies electricity at medium or high voltage and the customer utilizes it at this voltage or transforms it at no cost to the Distributor, this customer, and this customer alone, is entitled to a monthly credit in dollars per kilowatt on the monthly demand charge applicable to the contract. The credits, determined according to the supply voltage, are as follows:

<u>Nominal voltage between phases equal to or greater than</u>	<u>Monthly credit \$/kW</u>
5 kV, but less than 15 kV	0.552
15 kV, but less than 50 kV	0.882
50 kV, but less than 80 kV	1.962
80 kV, but less than 170 kV	2.409
170 kV	3.228

No credit is granted for short-term contracts with a duration of less than 30 days or on the minimum monthly amount billed under Rates G and G-9.

10.3 Credit for supply applicable to domestic rates

When the Distributor supplies electricity at a nominal voltage between phases equal to or greater than 5 kV for a contract at Rate D, DM or DT and the customer uses it at this voltage or transforms it at no cost to the Distributor, this customer is

The provisions of this article do not apply to the following changes:

Rate G to Rate M or vice versa;

Rate M to Rate L or vice versa.

10.2 Credit for supply at medium or high voltage

When the Distributor supplies electricity at medium or high voltage and the customer utilizes it at this voltage or transforms it at no cost to the Distributor, this customer, and this customer alone, is entitled to a monthly credit in dollars per kilowatt on the monthly demand charge applicable to the contract. The credits, determined according to the supply voltage, are as follows:

<u>Nominal voltage between phases equal to or greater than</u>	<u>Monthly credit \$/kW</u>
5 kV, but less than 15 kV	0.552
15 kV, but less than 50 kV	0.882
50 kV, but less than 80 kV	1.962
80 kV, but less than 170 kV	2.409
170 kV	3.228

No credit is granted for short-term contracts with a duration of less than 30 days or on the minimum monthly amount billed under Rates G and G-9.

~~No credit is granted to customer who has received financial compensation for its transformer substation.~~

10.3 Credit for supply applicable to domestic rates

When the Distributor supplies electricity at a nominal voltage between phases equal to or greater than 5 kV for a contract at Rate D, DM or DT and the customer uses it at this voltage or transforms it at no cost to the Distributor, this customer is
