

**TRANSMISSION LOADING RELIEF (TLR) ON
TRANSÉNERGIE'S TRANSMISSION SYSTEM FOR THE
PERIOD OF JUNE 1, 2009 TO MAY 31, 2010**

**Transmission Loading Relief (TLR) on TransÉnergie’s transmission system for
the
period of June 1, 2009 to May 31, 2010**

Classification of Transmission Loading Relief	Number of Observations
Loading relief on TransÉnergie system limits, with or without curtailment of service ¹	19
Loading relief affecting interconnection limits due to events outside the interconnections ²	20
Loading relief affecting interconnection limits due to events on the interconnections ³	64

¹ This category corresponds to events observed on TransÉnergie’s system which do not necessarily cause a curtailment of transmission service.

² These events include planned outages and overcapacity but exclude events observed on the interconnections.

³ These events are observed on the interconnections, to the exclusion of the events defined in note 2.
