- Province of New Brunswick
  - Energy Policy Committee
  - Electricity Market Design Committee
- East Coast Regional Transmission Organization Development Group
- Government of Canada
  - Forecast Working Group of Climate Change Task Group
  - Inter Provincial Electricity Trade Working Group
- Northeast Power Coordinating Council (NPCC)
  - Load and Capacity Task Force
  - Capacity Planning Work Group 5 – Interconnection Reliability
  - Reliability Coordination Committee
- Maritime Provinces Utility Planning Committee and the Atlantic Electricity Working Group
- Canadian Electric Association (CEA)
  - Operations and Reliability Section
  - Climate Change Steering Committee
  - Fossil Utilities Climate Change Work Group
- CIDA sponsored Bhutan Project administered through University of New Brunswick
- CIGRE Task Force 38-03-10 on Composite Reliability (Co chairman)

Participation as an expert witness before hearings of various administrative boards and government committees including

- Crown Corporation Committee of the NB Legislature
- Select Committee on Energy of the NB Legislature
- Select Committee on Wood Supply of the NB Legislature
- Board of Commissioners of Public Utilities of New Brunswick (PUB)
- Energy and Utilities Board of New Brunswick (EUB)
- National Energy Board of Canada
- Régie de l'énergie of Québec
- Maine Public Utilities Commission

Writing and presentation of various technical papers, courses and seminars before various groups including

- Institute of Electrical and Electronic Engineers
- Canadian Electrical Association (CEA)
- Canadian Nuclear Association
- Canadian Pulp and Paper Association
- Atlantic Power Summit
- Atlantic Energy Conference
- Québec Electricity Forum

- Ontario Power Symposium
- Northeast Power Coordinating Council (NPCC)
- Canadian Association - Members of Public Utility Tribunals (CAMPUT)
- Association of Professional Engineers of New Brunswick (APENB)
- CIGRE
- Point Lepreau Operator Training Program
- ClickSoftware Global Utility Summit
- International T&D Summit

### **Experience specifically related to TransEnergie's Transmission Tariff application**

#### **While at NB Power:**

- Integrated Resource Planning Studies for NB Power in 1991, 1995 and 2001
- Economic evaluations of major transmission projects including the NB-HQ Madawaska HVDC interconnection, the NB-NE second 345 kV interconnection and various projects internal to NB
- Participation on NB policy committees since 1996 regarding utility and market restructuring, open non discriminatory transmission access and reciprocity requirements of FERC Order 888 that lead to NB White Paper Energy Policy (2001), NB Open Access Transmission Tariff (2003), NB Electricity Act (2003) and NB Market Rules (2004)
- Intervention regarding TransEnergie's Transmission Tariff Application to the Régie de l'énergie of Québec (2001)

#### **While with New Brunswick System Operator (2004-2008):**

- Administration of the NB Open Access Transmission Tariff (NB OATT)
- Direction of wind power integration studies and regional transmission studies
- Negotiation of Coordination Agreements with NSPI and ISO-NE, etc
- Implementation of NBSO as Reliability Coordinator of the Maritimes Area
- Administration, approval and compliance of NERC standards and NPCC criteria
- Proposed modifications to the NB OATT regarding FERC Order 890 and Market Advisory Committee recommendations

#### **As an independent consultant (2008):**

- Witness before EUB for amendments to NB OATT
- Completion of a discussion paper for NB Energy in 2008 outlining a sustainable energy development strategy for the Atlantic region involving new hydro, nuclear and large scale wind generation.
- Extensive stakeholder consultation for NB Energy regarding the NB Electricity market and the structure of NB Power
