Acknowledgements

At the time of development of this specification, the OpenHAN Task Force was chaired and facilitated by Erich W. Gunther, EnerNex Corporation; Tim Enwall, Tendril Networks, served as secretary. The chairman would like to acknowledge the following individuals and organizations for their support without which the development of this specification would not have been possible:

- Southern California Edison (SCE) and the Electric Power Research Institute (EPRI) for funding a large portion of the time and travel expenses for the chairman and his support staff.

- Paul De Martini (SCE) for his vision and support as well as arranging for SCE to contribute significant internal work products and extensive human resources – most notably Jeremy McDonald, the technical editor for this document, and Ivan O'Neill, for document and core team management.

- San Diego Gas & Electric, Pacific Gas & Electric, American Electric Power, Southern California Edison, Consumers Energy, and CenterPoint Energy for hosting our face-to-face meetings.

- The UCA® International Users Group for serving as our host organization, providing logistical support, web site hosting, and funding for meetings at conference venues.
