Subject: Confirmation of Technological Compliance with HydroQuébec Standards

Dear Madam/Sir,

As per the RFP3 Q&A, Question 7 as a follow up to Answer 2 and corresponding Answer 7, it is stated that,

"Hydro-Québec TransEnergie confirms that, if a request for an exploratory study is submitted for a model of wind turbine for which Hydro-Québec Distribution already issued a notice in 2007 or before, it is necessary to provide to Hydro-Québec TransEnergie a letter from the wind turbine manufacturer attesting that the proposed wind turbine model is identical to the model for which the notice was issued."

Accordingly, Repower hereby confirms that the MM82 and MM92 turbine models are identical to the models for which HydroQuébec issued its, "Avis préalable de qualification relative à la modélisation du comportement électrique de chaque technologie éolienne propose" in 2007 or before.

At present Repower cannot in any way warrant participation in the HQ Call for Tenders A/O 2009-02 (Wind-generated electricity 2 x 250 MW) or that the models that might ultimately be proposed or supplied in the context of the HydroQuébec Call for Tenders A/O 2009-02 (Wind-generated electricity 2 x 250 MW) will be identical to those for which HydroQuébec issued its, "Avis préalable de qualification relative à la modélisation du comportement électrique de chaque technologie éolienne propose" in 2007 or before.

Sincerely,

Caroline Kavanagh
