

Réponse du Transporteur à l'engagement 1

(Demandé par l'ACEFO)

Engagement 1

(Demandé par Me Steve Cadrin pour l'ACEFO, 2019-05-13, notes sténo., volume 16, page 82)

Référence : HQT-5, Document 4.5, page 11, réponse à la question 8.2

Verify in which category would BC Hydro place an investment cost caused by a decline in system load.

Réponse

After further review of the publicly available documents posted by BC Hydro, Dr. Metin Celebi did not find any specific references to the classification of an investment caused by a decline in system load into the transmission upgrade categories used by BC Hydro. The absence of a specific reference on this matter does not mean that these situations are not taken into account by BC Hydro in assessing the need for transmission investments.
