**Re: R-3936-2015**  
**Request related to the removal of PSE and IA functions from the Register of Entities Subject to Reliability Standards**

---

Shell Energy North America (Canada) Inc. ("Shell Energy") provides these observations in response to the Notice to Interested Parties delivered by email by Hydro-Québec on September 22, 2015. Shell Energy is currently registered as a Purchasing-Selling Entity ("PSE") in Québec and is impacted by this application.

Shell Energy agrees with the proposal by Hydro- Québec to remove the PSE function from the Register of Entities. This application is necessary and appropriate, and will not have negative impact on electric reliability in Québec. The decision by NERC to remove PSE registration was a result of extensive analysis and consultation with experts and industry participants.

Respectfully submitted,

*submitted electronically*

Paul Kerr
