Questions de Concentric Energy Advisor

1. Préambule :

- i) C-EBM-011
Mémoire p. 9

“R-4058-2018 : 2% + 0,60% – 0% + 1,281% = 3,881%”

- 1.1 Does EBM recommend a stretch factor only if the X factor is negative?
- 1.2 Does EBM recommend that the growth factor be “attenuated” only if the X factor is negative?
- 1.3 Please describe EBM’s understanding of the relationship and purpose of a growth factor, stretch factor and an X factor in performance based ratemaking.

2. Préambule :

- i) C-EBM-011
Mémoire p. 12

“Recommendation # 3 - A Positive S-Factor could be introduced into the Carrier's Index Formula to provide an additional incentive to reduce the costs of commissioning projects captured by Factor C and to compensate for the bias of a negative Factor X plus a Factor C to increase the level of incentive that the mechanism provides.”

- 2.1 Please identify the source of “bias” in the X and C factors referenced by EBM.
