Martin Fassier

COO chez CaSA.energy
Canada

Résumé

Clean, renewable energy is a condition for our societies to endure and my job is to help make it happen. Come find out what awaits as I team up with the most amazing, most competent and most unlikely people to deliver a cleaner, better, more sustainable electricity grid.

Expérience

CaSA.energy

COO

janvier 2014 - Present (7 ans 7 mois)

Montreal, QC

CaSA is Canada's first Virtual Power Plant, harnessing the Internet of Things to achieve electrical load control in residences across Canada and the US. By becoming the first aggregator of its kind, CaSA leads the way in what will shape tomorrow's smart grid and power generation.
