Note : Modification requise suite à la modification des tarifs de TransCanada Pipelines Limited au 1^{er} mars 2011

13. TRANSPORT

13.1 SERVICE DU DISTRIBUTEUR

13.1.1 APPLICABILITÉ

Pour tout client qui désire acheter du distributeur le transport servant à acheminer jusqu'au territoire du distributeur le gaz naturel qu'il retire à ses installations.

13.1.2 TARIF DE TRANSPORT

13.1.2.1 Prix du transport

Pour chaque m³ de volume retiré, les prix du transport, en date du 1^{er} mars 2011, sont les suivants :

<u>zone Sud</u>	<u>zone Nord</u>
8,097 ¢/m ³	7,028 ¢/m ³

Les prix de transport peuvent être ajustés périodiquement pour refléter le coût réel d'acquisition.

13.1.2.2 Ajustement relié aux inventaires

Le prix du transport est accompagné d'un ajustement pour tenir compte de la variation de la valeur des inventaires résultant d'un changement dans le prix de transport, ainsi que des coûts reliés au maintien de ces inventaires. Cet ajustement est décrit à la section « Ajustements reliés aux inventaires ».

13.1.3 OBLIGATION MINIMALE ANNUELLE (OMA)

Le volume retiré au cours de chaque année contractuelle doit être au moins égal à l'OMA applicable pour la même période.

13.1.3.1 Établissement de l'OMA – clients aux tarifs de distribution D₁, D_M et D₅

L'OMA applicable pour chaque année contractuelle est celle convenue au service de distribution.

13.1.3.2 Établissement de l'OMA – clients aux tarifs de distribution D₃ et D₄

Pour la première année contractuelle :

L'OMA est égale au volume projeté, tel que convenu avec le client, multiplié par 78 %.

Pour chaque année contractuelle subséquente :

L'OMA est égale au volume des 12 mois de l'année précédente multiplié par 78 %.

Lorsque le volume des 12 mois de l'année précédente est inférieur à l'OMA définie pour ces mêmes 12 mois, cette dernière OMA multipliée par 78 % devient l'OMA de l'année courante.

Dans le cas où, pour l'année courante, un volume projeté a été convenu avec le client et que ce volume est supérieur à la fois au volume de l'année précédente et à l'OMA définie pour la même année, l'OMA de l'année courante est égale au volume projeté convenu avec le client multiplié par 78 %.

13.1.3.3 Facturation du volume déficitaire

Si, à la fin d'une année contractuelle, le client a retiré un volume inférieur à son OMA, le service de transport lui sera facturé pour le volume déficitaire au prix de l'article 13.1.2.1 ci-dessus.

13. TRANSPORTATION

13.1 DISTRIBUTOR'S SERVICE

13.1.1 APPLICATION

For any customer who wishes to purchase from the distributor the transportation service needed to move to the distributor's territory the natural gas it withdraws at its facilities.

13.1.2 TRANSPORTATION RATE

13.1.2.1 Transportation Price

For each m³ of volume withdrawn, the transportation prices, as of March 1, 2011, are as follows:

<u>Southern Zone</u>	<u>Northern Zone</u>
8.097¢/m ³	7.028¢/m ³

Transportation prices may be periodically adjusted to reflect actual cost of acquisition.

13.1.2.2 Inventory-related Adjustment

The transportation prices are accompanied by an adjustment to take into account variations in the value of inventories resulting from a change in the transportation price, as well as costs associated with maintaining the inventories. This adjustment is described in the "Inventory-related Adjustments" chapter.

13.1.3 MINIMUM ANNUAL OBLIGATION (MAO)

The volume withdrawn during each contract year must be at least equal to the MAO applicable for the same period.

13.1.3.1 Establishment of MAO - Distribution Rate D₁, D_M and D₅ Customers

The MAO applicable for each contract year is that agreed upon in the distribution service.

13.1.3.2 Establishment of MAO - Distribution Rate D₃ and D₄ Customers

For the first contract year:

The MAO is equal to the projected volume, agreed upon with the customer, multiplied by 78%.

For each subsequent contract year:

The MAO is equal to the volume for the 12 months of previous year multiplied by 78%.

When the volume for the 12 months of the previous year is less than the MAO defined for the same 12 months, this latter MAO, multiplied by 78%, becomes the current year MAO.

Where, for the current year, a projected volume has been agreed upon with the customer and the volume exceeds both the previous year's volume and the MAO defined for the same year, the current year MAO is equal to the projected volume, agreed upon with the customer, multiplied by 78%.

13.1.3.3 Billing of the Volume Deficit

If, at the end of a contract year, a customer has withdrawn a volume that is less than its MAO, transportation service will be billed for the volume deficit at the price stipulated in Article 13.1.2.1.

Dear Mr. Pelletier, Ms. Scott, and Mr. Yates:

**TransCanada PipeLines Limited (TransCanada)
Application for Revised Mainline Interim 2011 Tolls, effective 1 March 2011**

The National Energy Board has received TransCanada's 25 January 2011 application (Application), requesting that the Board approve increased TransCanada Mainline interim tolls effective 1 March 2011. The Mainline's existing interim tolls were set equal to final 2010 tolls effective 1 January 2011 by Order TGI-04-2010.

In addition, pursuant to the Board's letters dated 27 January 2011 and 2 February 2011, the Board has received comments dated between 2 February 2011 and 7 February 2011 from interested parties, and TransCanada's comments dated 9 February 2011 and 10 February 2011.

The Board has decided to approve the Application, as filed. The attached Order AO-1-TGI-04-2010 revises the current interim Mainline tolls, effective 1 March 2011.

As has been stated in the past, the Board establishes interim tolls without an extensive examination of substantive issues and a decision to approve interim tolls is, in no way, a ruling by the Board as to the merits of any case presented by an Applicant or by interested parties to set final tolls. In light of the limited filings in an application to set or amend interim tolls, absent compelling evidence to the contrary, interim tolls are normally established in a manner that aligns with the Board's most recent decision which relates to a company's final tolls.

...2

With respect to the Application, as it did when issuing Order TGI-04-2010, the Board recognizes the current unusual circumstances. While it is significant that the proposed revised interim tolls are calculated in accordance with previously approved toll methodologies and the 2007-2011 Mainline Settlement, modified in similar fashion as was approved for establishing final 2010 tolls, the Board notes that there is more than the usual level of uncertainty related to final 2011 Mainline tolls.

The Board has concluded that approval of the Application is in the public interest.

The Board is concerned with the continuing uncertainty related to this matter. Accordingly, the Board expects TransCanada to file its application for final Mainline tolls, whether supported by a settlement or otherwise, by noon Calgary time, 2 May 2011.

TransCanada is directed to serve a copy of this letter on all parties to the RH-2-2004 proceeding, the Mainline Tolls Task Force, Mainline shippers, Alberta System shippers, and the Alberta System Tolls, Tariff, Facilities and Procedures Committee.

Yours truly,

A handwritten signature in cursive script that reads "AnneMarie Erickson".

Anne-Marie Erickson
Secretary of the Board

Attachment

ORDER AO-1-TGI-04-2010

IN THE MATTER OF THE *National Energy Board Act* (Act) and the regulations made thereunder;

AND IN THE MATTER OF an application filed with the National Energy Board by TransCanada PipeLines Limited (TransCanada) dated 25 January 2011 for approval of revised Mainline Interim 2011 Tolls effective 1 March 2011, pursuant to sub-section 19(2) and Part IV of the Act under File OF-Tolls-Group1-T211-2011-01 01

BEFORE the Board on 24 February 2011.

WHEREAS TransCanada filed an application dated 25 January 2011, seeking approval for revised Mainline interim 2011 tolls, effective 1 March 2011;

AND WHEREAS the Board issued a letter dated 27 January 2011 soliciting comments from interested parties, with an update on 2 February 2011;

AND WHEREAS the Board received letters of comment with respect to the application from a number of interested parties between 2 February 2011 and 7 February 2011, and TransCanada's reply comments dated 9 February 2011 and related letter dated 10 February 2011;

AND WHEREAS the Board has considered the above filings and has decided to approve the application, as filed;

IT IS ORDERED, pursuant to subsection 19(2) and Part IV of the Act, that:

1. The Mainline's current interim tolls, which were made effective under Toll Order TGI-04-2010, be terminated as of the end of the day on 28 February 2011.

.../2

2. TransCanada's proposed revised Mainline interim tolls, contained in its 25 January 2011 application, be implemented effective 1 March 2011 on an interim basis pending any future amending Orders and/or final Order by the Board concerning the Mainline's 2011 tolls.

NATIONAL ENERGY BOARD

A handwritten signature in black ink that reads "AnneMarie Erickson". The signature is written in a cursive, flowing style.

Anne-Marie Erickson
Secretary of the Board

Transportation Tolls
 Approved Mainline Revised Interim Tolls effective March 1, 2011

System Average Unit Cost of Transportation

- Notes:
- (i) Union Dawn Receipt Point Surcharge applies to the monthly demand toll for FT, FT-NR and FT-SN. For other transportation services the Union Dawn Receipt Point Daily Demand Toll applies. Refer to Toll Design Schedule 5.1 for the surcharge toll.
 - (ii) Transportation with receipt points from delivery areas is for STFT and IT service only.
 - (iii) The following delivery points are subject to additional charges for delivery pressure. Emerson 1 & 2, Dawn, Niagara Falls, Iroquois, Chippawa, East Hereford. Refer to Toll Design Schedule 5.1 for delivery pressure tolls.
